Together We Are Silver Creek

In the past year, we Raiders have been drawn together through a variety of experiences. We huddled together in the chilly October air as we cheered our football team to its many victories. Afterwards, we all piled into our friends' cars and raced over to the Golden Mushroom to devour pizzas and guzzle cokes. We studied together and helped each other out before tests and we shared our joys and our griefs when our report cards came home. We may not have known it at the time, but together we were creating an atmosphere . . . we were characterizing what Silver Creek was and meant: a group of people whose very existence stemmed from togetherness.

Upper Left. Silver Creek remembers the thrilling days of yesteryear. Kassie Bolling and Wanda Jaworski pose in this warm and cozy family portrait.

Together We Are Together We Are Together We Are the Mighty Raiders

Silver Creek was synonymous with spirit and exuberance. The gym rumbled, vibrated, and nearly burst at its hinges when the Mighty Raiders held wild rallies every few weeks. Balloons, kazoos, streamers, and for the Seniors, Burger King hats, were all a part of the festive air that penetrated the atmosphere at Silver Creek. Even teachers, who were supposed to display a Spartan-like control of their emotions, let their spirit show as they dressed like cowboys and little kids during Spirit Week. The dedicated Student Body also added excitement by planning and holding activities, such as the Baby picture contest, Spirit Week, and Sadie Hawkins Week.

Right. All of Silver Creek's vigor and enthusiasm were brought to life in Traci Gatewood as she went crazy at the Homecoming rally.

Upper Right. The award-winning percussion section thrilled many excited crowds.

Far Left. It was great to see so many people get into the spirit of things. Irene Rivas, dressed in a football jersey, shows her spunk during Spirit Week.

Lower Right. It's great to be able to share the vast knowledge to be found in a library, as Tony Mazzaferro and friends do here.

Lower Left. Did you ever wonder what it was like behind the cloudy windows of the brunch line? Elvina Ross knows well; she has served many brunches to hungry Raiders.

Together We Stay Afloat

Working together . . . is a very important facet of high school life. Getting together to work on last-minute homework, class floats, Student Council projects or after school sports, all add enjoyment to what would otherwise be a dull year. Togetherness is the foundation upon which all productivity is built. Fortunately, this spirit of working together is alive and well at Silver Creek.

Hi Joe,

So how's life? Just great I hope?
I just recently met you, but I'm
glad I did. You have alot going
for you, so don't ruin it!! Just
stay cool and kick back and
enjoy our gorgeous weather we've
been having lately! Well, I guess
that's just about all I have to say
right now, except "take care and
be 'GOOD". But

Mr. Lang Hits the Big Time.

Innovation and interest are the key words for teachers when attempting to convey their "message." Keeping students' attention and relating lessons resulted in unique methods. Mr. Fred Lang, with his "personal touches," has conveyed his message through his music.

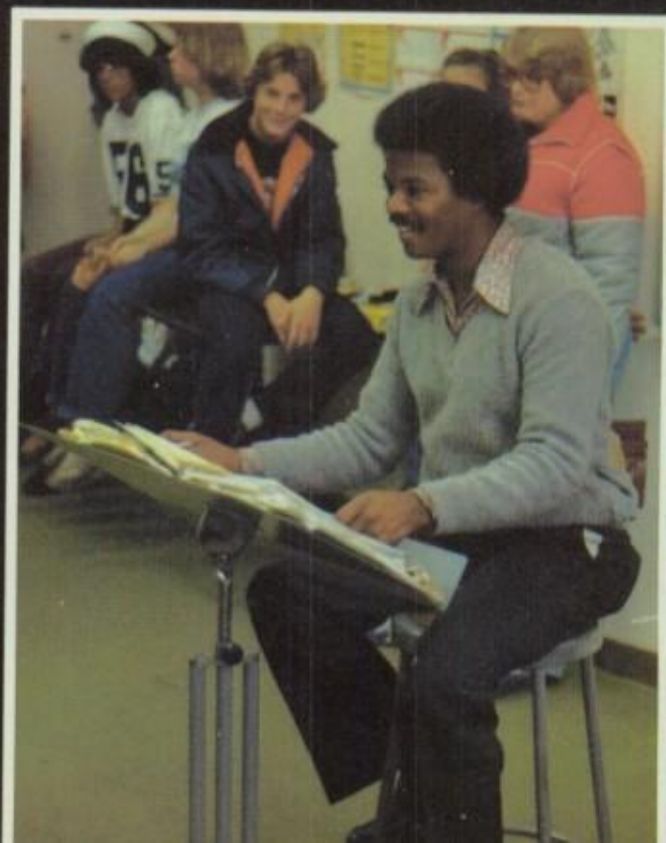

Relating his experiences, Mr. Lang stressed both the risks and rewards of competition. Working beyond the call of duty has resulted in the Silver Creek Raider Band becoming known throughout our community. Mr. Lang has always been willing, helpful, and encouraging. He has contributed much of his time after school and on weekends to practice with the band. Effort and hard work has transformed an impossibility into a reality. The band has taken many first place awards this year because the students were able to work together as one. The biggest highlight was receiving an invitation to attend the 1981 Orange Bowl.

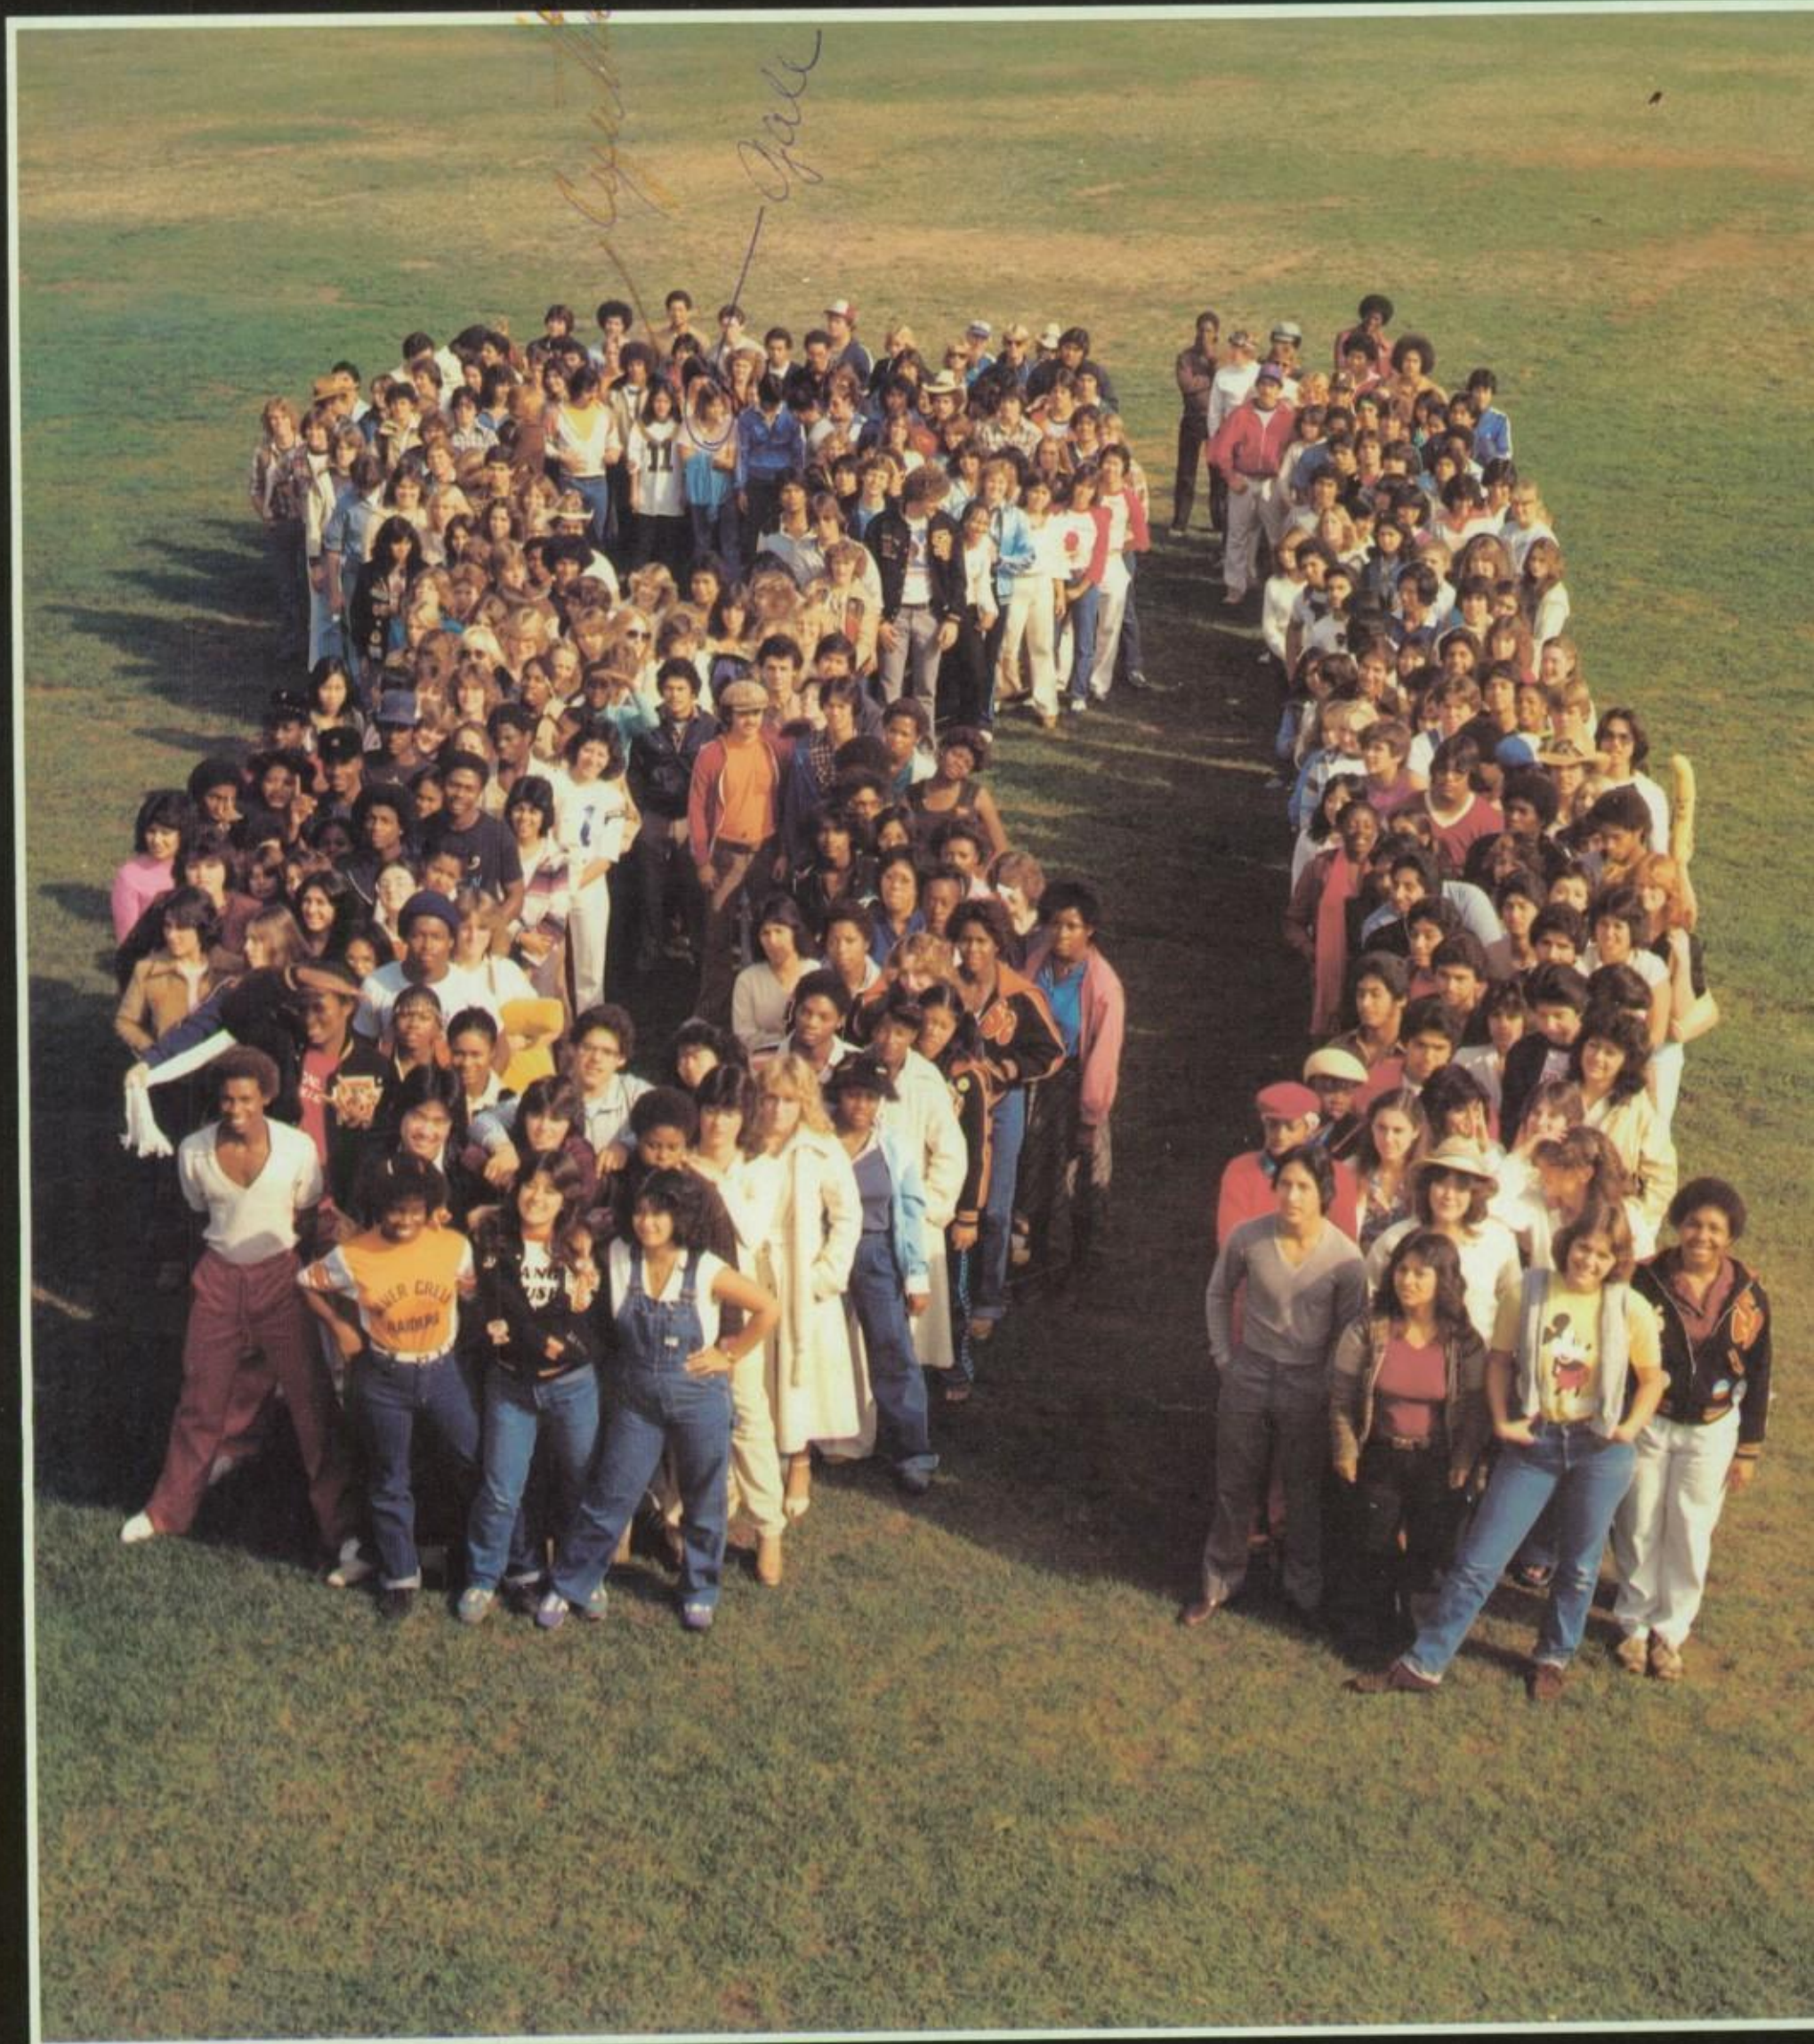

To you, Mr. Fred Lang, with much thanks and praise for your efforts, we wholeheartedly dedicate the 1981 Galleon.

STUDENT LIFE

Unlike aquatic or subterranean life, student life is a unique and exciting form of existence. Migrating hordes of students often inhabited the downtown San Jose library the night before term papers were due, and subsequently caused all Shakespeare books to go into a state of temporary extinction. During lunch, several different herds of students gathered to "graze" on hamburgers, hot dogs, enchiladas, and other delicacies provided by our cafeteria staff. Some students congregated at their traditional watering hole, more commonly known as the quad. Some all too common species of Raiders (known as the disobedientus studentos) were held captive in detention rooms by preying teachers. But after all the pressure has been lifted, most Creekers come out of their cocoons, and like butterflies on a spring's eve, fly off into a new and exciting weekend.

The Spirit of Homecoming

On the morning of October 24, 1980, tension was thick as every creeker was "hyped" to the max" (yes, even the Freshmen). The Homecoming rally proved to be one of the best Silver Creek has ever had. The atmosphere was one of excitement. Balloons, confetti, and noise-makers added to the pandemonium as each class

exhibited its intense spirit. Following tradition, the Seniors captured first place with their "rowdiness",

Later that evening, Creek spirit could still be felt at the Homecoming game. It was definitely a "live" crowd with people singing, dancing, and cheering throughout the game.

During halftime, the award-win-

ning Raider Band performed. The floats were displayed with the Seniors winning first place. Finally, this year's Homecoming King and Queen were announced to a surprised and enthusiastic crowd.

The end of the football game found Silver Creek with a loss; but the spirit of Homecoming was not forgotten.

Traditionally, the selection of Homecoming King and Queen has been an exciting and memorable event. The election of Silver Creek's 1980-1981 "royalty" was no exception. Students were given a chance to see the nominees during Spirit Week and at the rally. Even though the voting occurred a week before, the game no one knew the outcome until halftime.

The tension could be felt as the runners-up were announced. Finally, the moment arrived . . . a tearful but jubilant Yvonne Gonzales was chosen Homecoming Queen, and a surprised but happy Rick Garcia was selected as Homecoming King.

As the Creek Flows on

Excitement, unity, spirit, and pride were the first aspects one would have noticed at Creek this past year. Our number one goal was to improve the students' outlook on school, as well as education. This goal was reached after the first few weeks. Since then, Creek has been flowing right along.

Silver Creek has changed enormously since last year. There were many new students, ideas, clubs, styles, and activities. The new clubs were the Kazoo Pep Band, Punk, Maranatha, and Savron's Sorcerers. The new style of '81 was the 'new wave'; and what a wave it was! Stu-

dents really got involved in this style. The attire consisted of everything from colorful hair to strange clothing. Ideas seemed to get better and better, and so did the activities. Such ideas and activities included picture contests, special dress-up days, rallies every two weeks, and class competitions. Most students were involved in at least one activity.

School for the Raiders was a great learning experience this year. 1980-81 was a year of togetherness for Silver Creek and as the Creek flows on this year will always be remembered.

THE MYSTERY DISAPPEARING

Nationwide chain of events
raises questions of possible
murder conspiracy conducted
by White racist groups

By WALTER LEAVY

A SERIES of murders and mysterious disappearances of Blacks—children as well as adults—has baffled investigators from Utah to Atlanta to Boston as they search for evidence that would indicate a connection among the puzzling incidents. President Carter told Ensey he had ordered the FBI to probe whether White hate groups were involved in a possible conspiracy relating to the cases, and said he had directed that the probe be given top priority. "The possibility exists that there is a conspiracy," the President said. "An investigation of suspects throughout the country is being conducted to see if there is a connection among these events. The FBI is conducting

enforcement and a former FBI agent, who headed the investigation of the case, "I would reach for to describe it as mysterious."

Sept. 22—Also in the Buffalo area and within a 36-hour period, Glenn Davis, Harold Green, Joseph McCoy and Emmanuel Thomas were shot in the head and killed with the same .22-caliber handgun. The shootings occurred in parking lots or on streets in Buffalo, Cheektowaga and Niagara Falls.

In another Buffalo incident on Oct. 20, a nurse walked into a seventh-floor room at East County Medical Center and disrupted an attempt by a White man to strangle a Black patient with a telephone cord. The patient was left in critical condition. The nurse described the assailant as a young White man, about 5-foot-2 to 5-foot-4, with long dark blond hair. The description of the suspect matched that of the man sought in the six murders incidents. Anger and tension spread throughout the Black community as threats of retaliation and bombs surfaced. Joseph Moore, assistant to the president of Buffalo's NAACP chapter, says, "There has been no evidence, but people are taking a wait-and-see attitude. Few make people doubt of things to protect themselves, and the sale of firearms is up."

Challenge of the '80s: join the 'we' generation

By George Marotta

MY FELLOW AMERICANS: Although we are not in a state of emergency, there are many problems now facing our country. The margin for error is becoming increasingly narrow. We must begin immediately to put into place long-term solutions. To do otherwise will ensure a legacy of emergencies for our children.

As the strongest nation, the United States has a unique responsibility for leadership of the free world. In this regard, we have let our defenses decline relative to our adversary and our foreign policy is hostage to overdependence on foreign oil.

After four years of searching and hoping, the mother of Monica Rios brought her 5-year-old daughter back to San Jose Tuesday.

Monica disappeared in October 1976 while visiting her father. The mother and father were separated then, and later divorced.

Her mother, Georgia Hilgeman, acting on one of hundreds of leads since Monica disappeared, found her in Puebla, south of Mexico City. The girl was staying with a first cousin of the girl's father.

Authorities had long searched the father, Juan Rios, instructor at Laney College in Oakland, of taking part in abduction but never charged him.

"We're very, very grateful to God. Our prayers were answered," Monica's stepmother, Robin Hilgeman, said at a union for the girl Tuesday afternoon.

"We always felt we would find her. It was just a matter of when and how."

Hilgeman said his wife was exhausted after a four-day trip to Mexico in search of the girl. He described the trip as a nightmare.

In the News

Our 1980-81 school year had a tremendous effect on American lives.

The first of these events involved the 52 Americans held captive in Iran for 444 days. "Tie a Yellow Ribbon Round the Ole Oak Tree," was the song that became a symbol of hope. On January 20, the Inauguration day of President Reagan, the Americans celebrated the release of their countrymen.

Ronald Reagan was often underestimated in American politics as being a washed-up, second-rate actor. And yet he squeezed by former-President Carter in the Opinion polls. On January 20, 1981 he was given the oath of office and became America's 40th President.

Former Beatle, John Lennon was shot to death on December 8, 1980, at the age of forty. People everywhere in the world mourned the death of the "Intellectual Beatle." Many people marched through the streets holding signs promoting John Lennon's philosophy of Peace.

The fruit fly battle has been a difficult one. The Mediterranean fruit flies infested Santa Clara County and Conservation Corps workers finished the job of stripping the fruit to halt the spread of the fly.

Four years ago Monica Rios a 13-month old native of San Jose disappeared in October of 1976. She was last seen with her father in Oakland. Then this past January, Mrs. Hilgeman was reunited with her five-year old daughter. Culminating an intensive four year search.

In his 40 years of life, John Lennon helped to change the world. He also changed a lot of individual lives through his iconoclastic creativity. Here, two writers who were young in the '60s reflect on the life and death of the man who may have invented that decade.

Raiders Lend a Hand

Every year at Silver Creek there are a great number of students and clubs who are involved in community service. One of these clubs, The Future Medical Workers, held its annual Blood Drive on November 20. There was a great turn-out of new donors. Over 50 pints of blood were collected from the students and the staff.

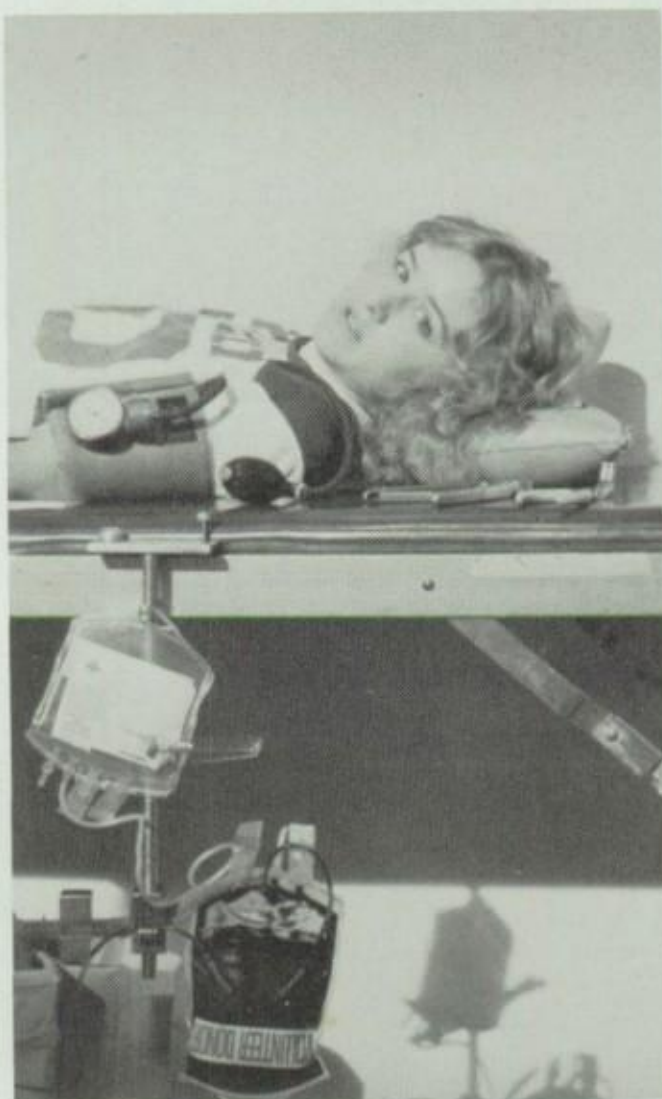

Many students were involved in volunteer work, such as LaShaun Miller, who works at Alexian Brothers Hospital. In addition, quite a few students were a part of the Junior Achievement Program. J.A. is an organization in which students are given an opportunity to learn what the real business world is all about. Because of the work of concerned Silver Creek students and many others, the San Jose area has become a better place to live.

Yuletide Spirit

Christmas week at Creek was a week of joyous activities. The first of these events was the creation of the Christmas Windows. Participation in this event was excellent. Much hard work and talent went into these windows and no one was a loser.

The annual Jack Emery Drive was a great success. Over 250 baskets of canned goods were donated to needy families in the community.

The Senior class came in first

place with a total of 360 cans contributed.

Candy grams were sold by the SCSS members. For those who did not receive candy grams, Santa Claus brought smiles to their day.

To end the Christmas Festivities, the Senior Class sponsored a very successful Christmas dance. The dance marked the completion of the 1981 school year and helped us look forward to the new year.

“Hello Dolly” is a musical comedy about a conniving matchmaker named Dolly Madison (played by Brenda Greenhalgh), who decides to make her own match with the Yonkers millionaire, Horace Vandergelder. Whilst Dolly “stalks her prey,” many humorous events take place, which makes for a funny and entertaining production.

There were many hours of preparation before the play was ready for the stage. Besides costumes and props, the cast started out rehearsing three times a week and progressed toward arduous daily rehearsals, as opening night grew near.

Anatomy of a Silver Creek Raider

THROAT — Hoarse from reciting "to be or not to be" passage from *Hamlet*. He considered the question himself after learning his grade in Mrs. Dusa's class.

CHEEKS — Still sore from trying to inflate uncooperative Safety Ed. dummy two years ago.

ARMS — Muscular and well-developed from carrying Mr. Wilson's ten-ton Physics books.

ERASABLE PEN — Can have the security that an erasable pen offers, while meeting teachers' demands that writing be visible.

LEGS — In great physical shape from running from H-building to locker in I-building to next class in 5 minutes flat.

HAIR — Ever so slightly mussed from running fingers through it in frustration while trying to do Mr. Yip's Trig problems.

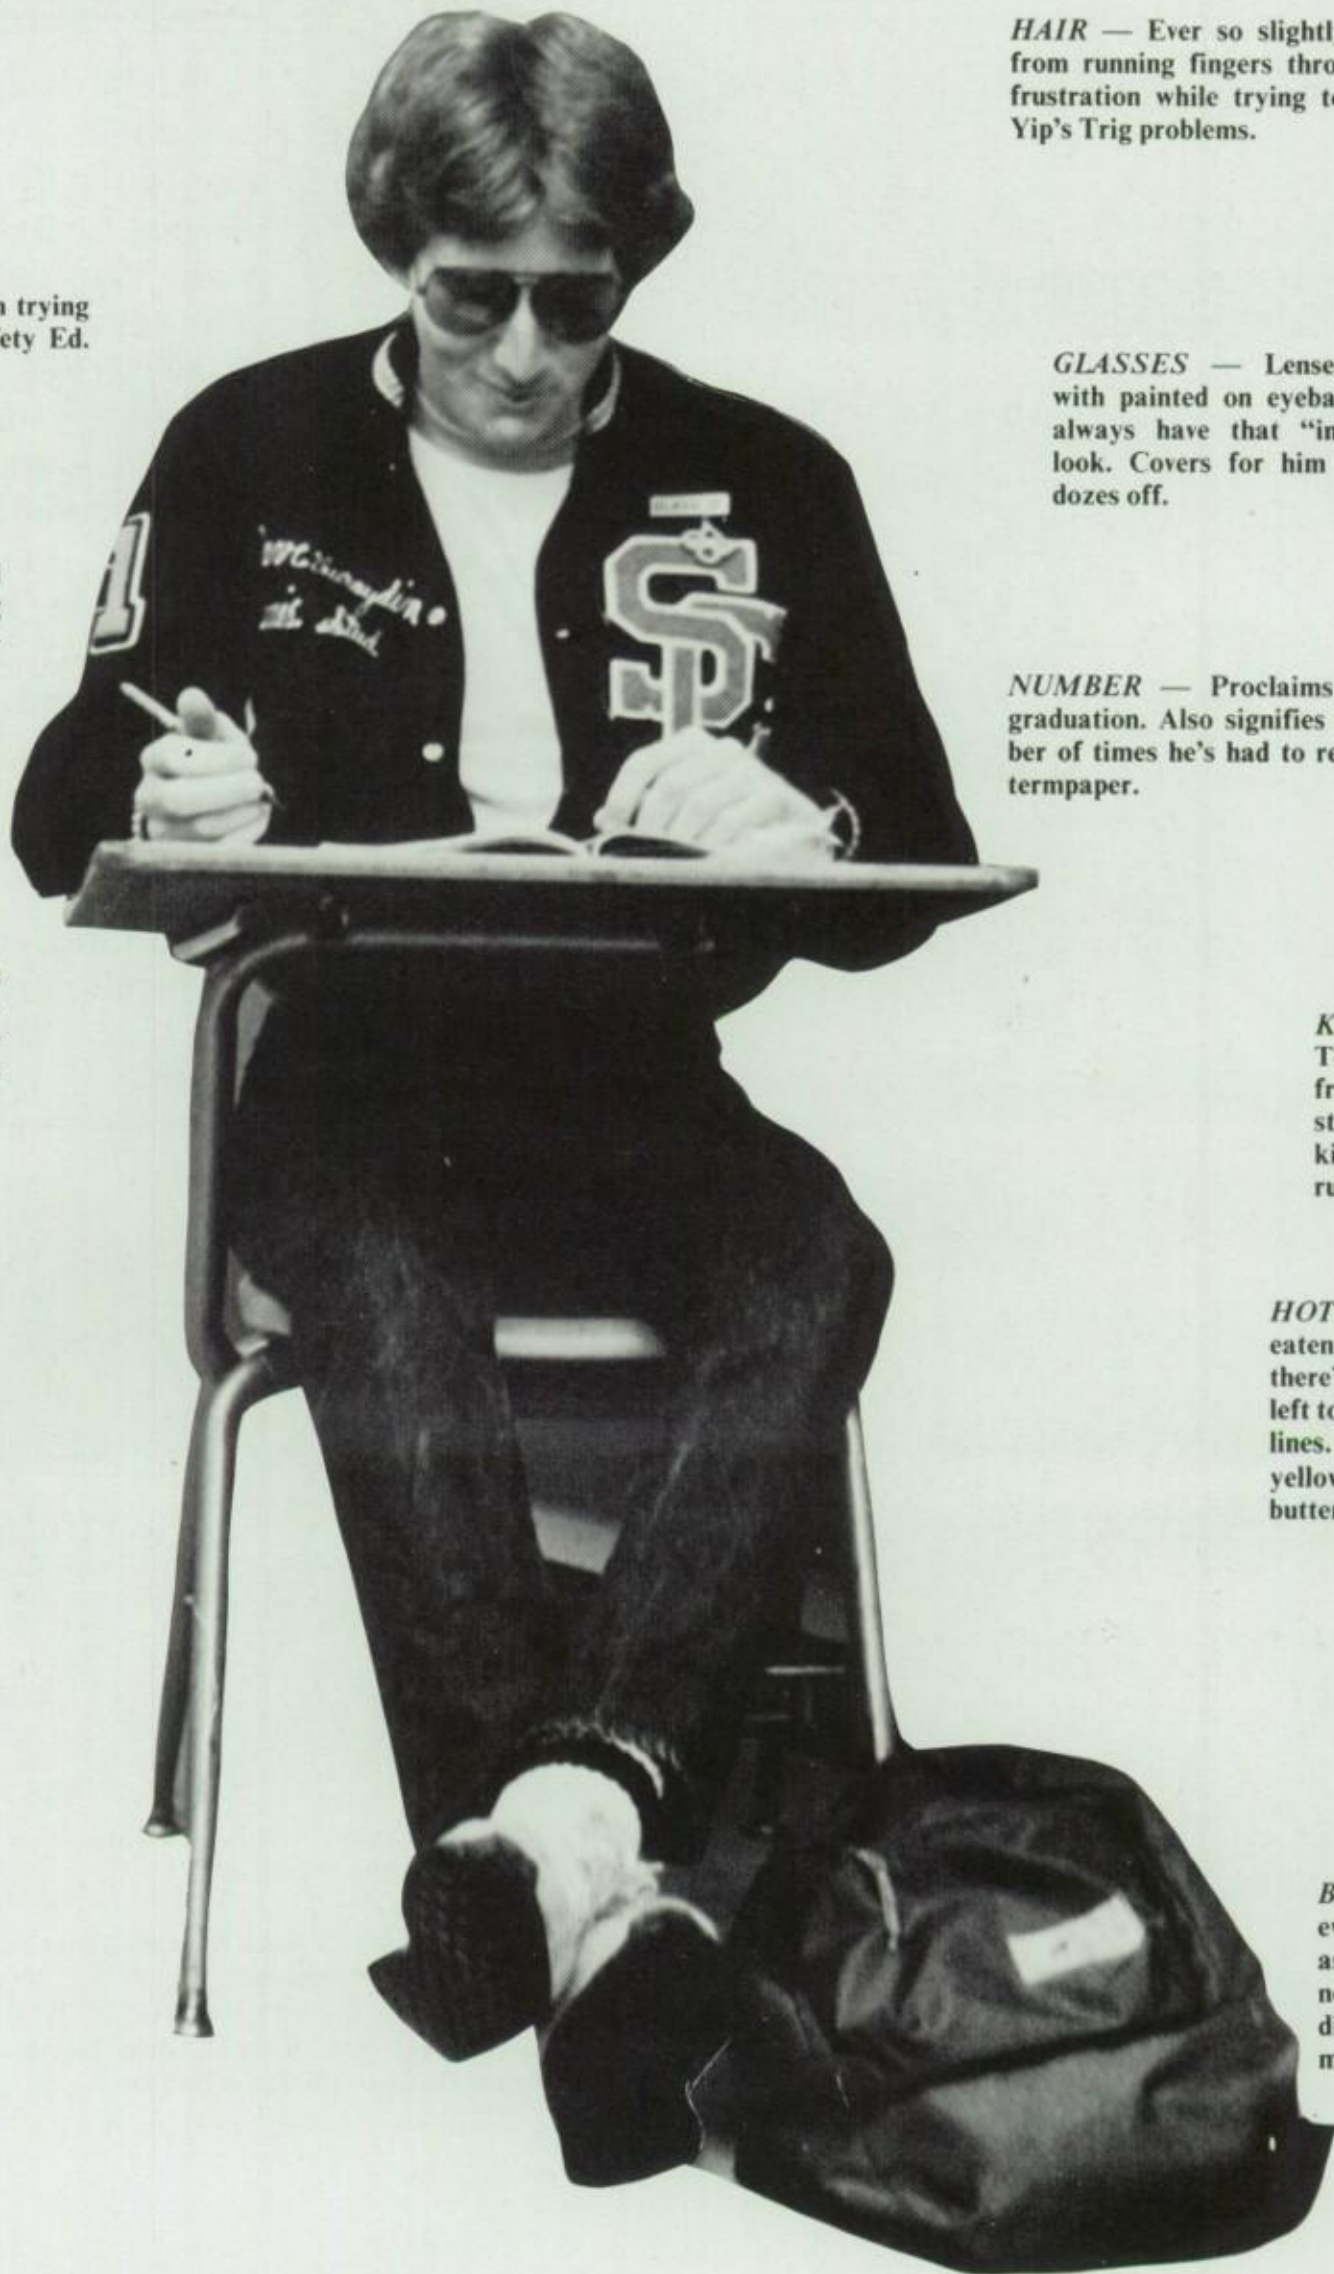

GLASSES — Lenses coated with painted on eyeballs which always have that "interested" look. Covers for him when he dozes off.

NUMBER — Proclaims year of graduation. Also signifies the number of times he's had to rewrite his term paper.

KNUCKLES — Tough as leather from pounding on stuck, dented, kicked-in, and rusted lockers.

HOT BREAD — Always eaten cold because there's not enough time left to eat after waiting in lines. Occasionally has yellow stuff resembling butter on it.

BACKPACK — Holds everything from late assignments to messy notebooks to downright disgusting Biology specimens.

Anatomy of a Silver Creek Teacher

EYES — Can spot one inch by one inch cheat notes under desk in back of room during a power outage, but can't read anything not written in black or blue ink.

EARS — Function as radar to detect whispered test answers and good jokes to amuse next bored class.

RED PENS AND PENCILS — Used for marking everything wrong on students' papers.

THROAT—Hoarse from repeating ten times a Thesaurus is NOT a new kind of dinosaur.

PHONE—Always connected to parents of twisted juvenile delinquent who put rat in her desk and melted brown crayon in coffee.

CONSERVATIVE DRESS — Effort to disguise fact that she moonlights as a D.J. at a local punk rock club.

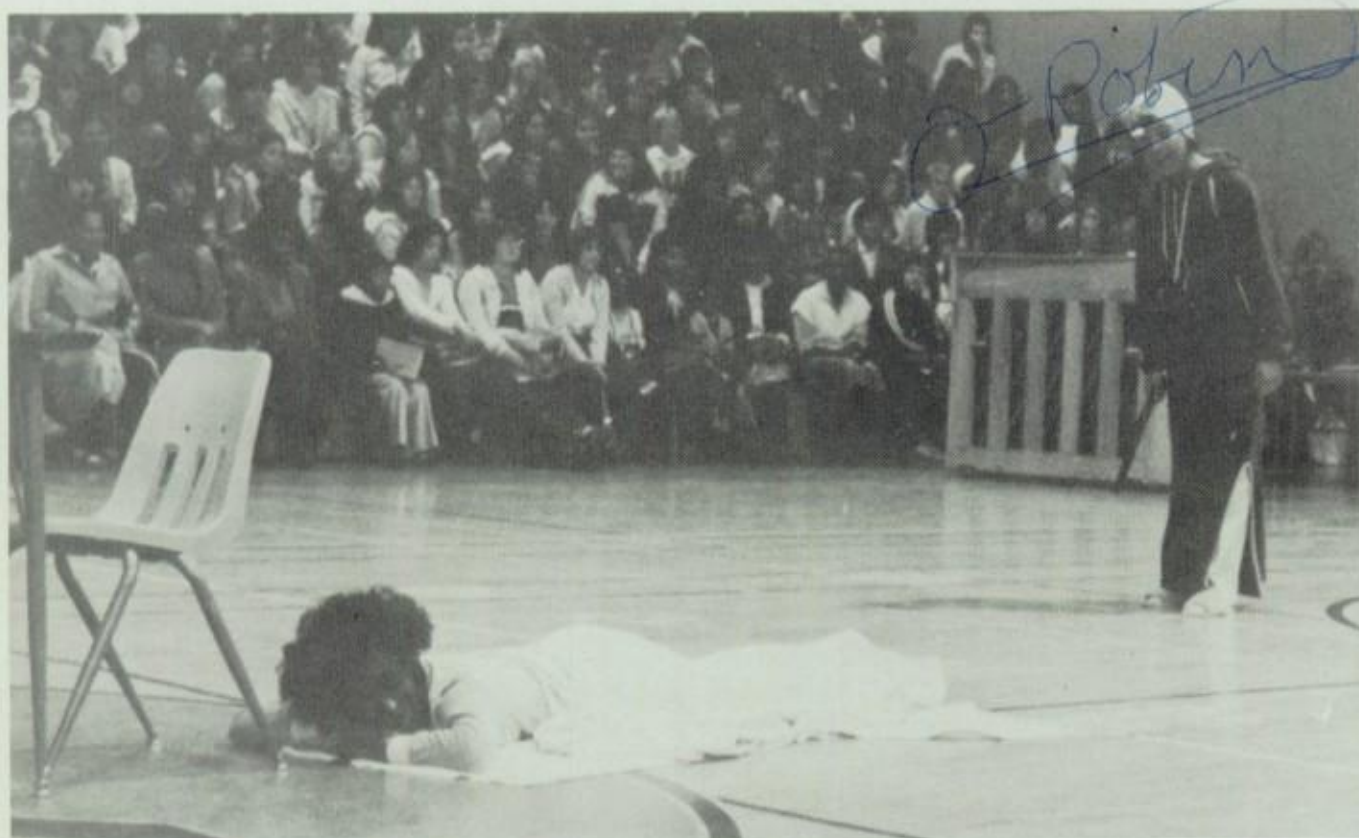

JOKE BOOK DISGUISED AS GRADEBOOK — Steals jokes from Reader's Digest and fools students into believing she's very witty.

COFFEE — A vital staple in a typical teachers' diet. Most teachers drown their sorrows in this murky, dark liquid, drinking in amounts that would have given Mrs. Olsen a caffeine-cardiac arrest years ago. Teachers are also responsible for the Brazilian coffee bean shortage.

B.S.U. Unity

This past year the B.S.U. of Silver Creek was really together. There were about thirty-five active members. They had many activities, such as a skating party, social, Talent Show and a Pageant. Aside from being an active club at school, the B.S.U. participated in community activities as well. A few examples are the Martin Luther King Day program, Black History Parade, and an Art Exhibition. 1980-81 was a successful year for the B.S.U., not only because a lot of money was raised, but because the participants reached their goal, unity. The advisors, Mrs. Wyrick and Mrs. Smith, worked hard to enable the B.S.U. to have a successful year. Because of this the Black students were proud of Staying together in Unity.

ENTHUSIASTS

A school without clubs is not unlike a black and white rainbow. Just as color is necessary to add depth and dimension to a rainbow, clubs are needed to enrich the school experience. Little clusters of students like bees attracted to a honeycomb, gathered in the confines of their clandestine meeting places to exchange bits of information pertaining to their interests. Those with beaver-like instincts chiseled, sawed, and drilled their spare time away in the wood club.

The polar bear-types acclimatized to cold weather, limbered up and down the ski slopes and rubbed their paws together to keep frostbite from setting in. The aloof cats in the Humanities club sharpened their claws of culture on scratching posts of classics, in music, art, and literature. When these involved individuals flew the coop to go on field trips, they often missed important classes.

Whoooo was there to help them get back on the right track? Why, the wise old owls in the Silver Creek Service Society (SCSS) tutored them back to good academic health and helped spread the sunshine of better grades all around. This way, the student's grades were not affected by joining the diverse number of clubs offered on campus.

Orange Crush Council

What is the Orange Crush Council? Many students were probably wondering this whenever they saw a group of students wandering around campus wearing orange baseball shirts. Well, the Orange Crush Council is the Student Government — the Associated Students of Silver Creek, — your student leaders. The council members were in charge of all the school's activities and were also constantly working hard to improve Silver Creek for you. The Executive Council was comprised of 20 officers, who worked with Mr. Dusek to make this year the best

ever.

Vice-President, Steve McGriff presided over the Senate, which solved many problems that were brought to them by class representatives. The representatives asked suggestions from their classmates that would help to improve our school; then brought these ideas to the Senate meetings, which were held every Monday.

These groups worked together to make Silver Creek a more enjoyable school. Without them, Silver Creek would not be complete.

Raider Committees

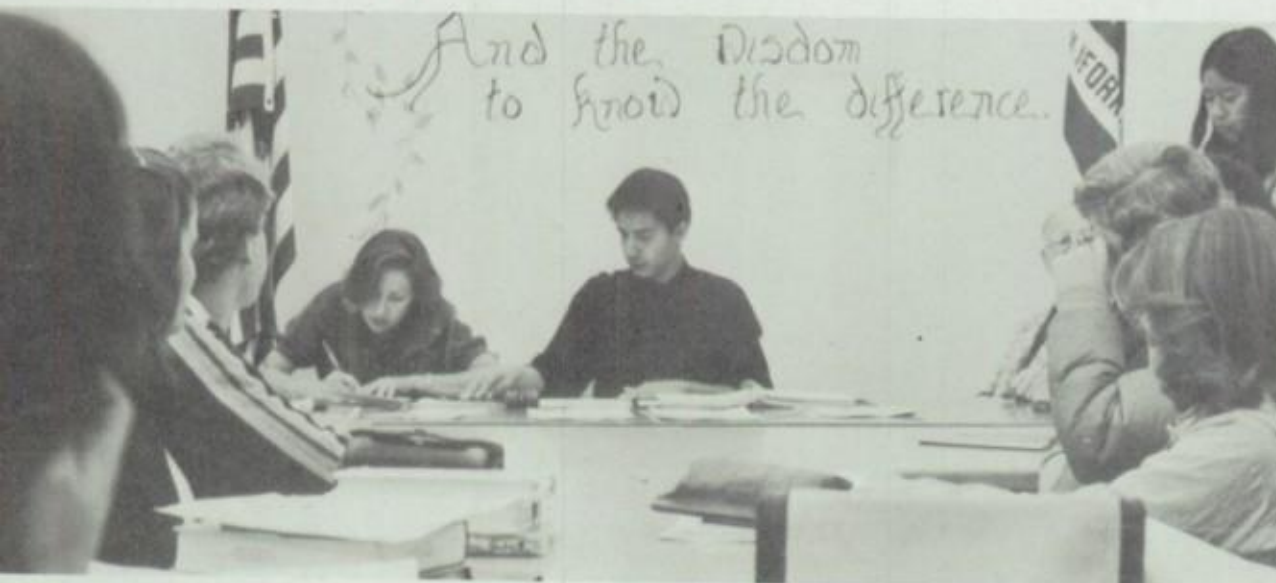

"Can we hold a dance? Can we sell M&M's? Can we sell pots and pans? What can we do to raise money for our clubs?"

These are questions that were answered by the Inter-Club Council, otherwise known as the ICC. Led by Juan Garcia, the Presidents of each club on campus, along with the four class Vice-Presidents, met every Thursday in the Activity Center. Here permission for special events were passed and fund-raising suggestions floated into the air.

The Silver Creek Service Society, now in its fifth year of operation,

has been one of the most helpful groups on campus. These students spent many hours during lunch or after school, tutoring other students who were slipping in their grades. Whenever a student began having trouble in one or more subjects, there was always sure to be a helpful SCSS member ready to put in time and effort to lift him/her from the depths of despair. The club raised money for holding the annual Candygram Sale, which provided the funds for the field trip to U.C. Davis.

Cultures of Silver Creek

The Asian Student Union is a club not only for Asians, but also for anyone interested in the Asian culture. With the aide of their advisor, Mrs. Gail Dusa, the members spent each Tuesday discussing plans for trips, ways to raise money and getting involved with the school. In the past years, ASU traditionally had exhibitions and food sales, which included lumpia, wonton and fortune cookies. The ASU members enjoyed getting together with Asian clubs from other schools.

The Black Student Union, too, has had a busy year here at Silver Creek.

They held their annual talent show and fashion show. As always, their advisors, Mrs. Jodi Wyrick and Mrs. Marjorie Smith, were very active and helpful to the club.

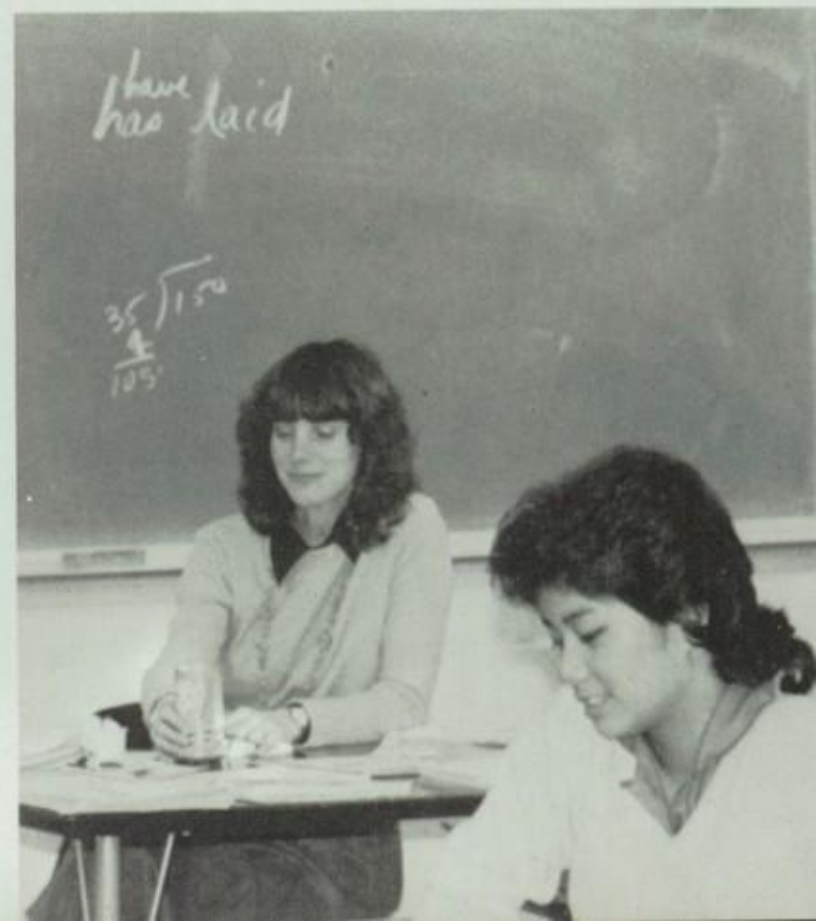

In addition to their annual performances, this year the BSU of Silver Creek got together with other schools on the East Side and put on a program together in honor of Dr. Martin Luther King. In celebrating Dr. King's birthday, it brought many of the people of the community together and there was a great feeling of unity of common purpose.

Raiders Working Together

The Chicano Student Union was formed twelve years ago and has accomplished different things every year. This year's activities included a calendar and candy sales, CSU King and Queen contest, Cinco de Mayo Banquet, assembly, dance, and also a CSU picnic.

In addition, this year the CSU raised money for scholarships, got involved in Chicano Sports Association, and worked with community service organizations such as the Wizard. Linda Hernandez, President of the CSU, attended Wizard meetings every Tuesday with CSU Presidents from other schools.

Different Forms of Art

The Sentinel — a form of art?! You may not think so, but putting the Sentinel together does involve creativity and originality. Arranging the layouts for each page does not take talent, but it does take creative and original thinking from the staff members.

The Martial Arts Club is also a

form of ancient art. It is an art of both mental and physical activity. This is the first year the Martial Arts Club has existed at Silver Creek. Not all the members knew Martial Arts skills, but before the end of the year, they all knew enough to organize an exhibition for our school.

Where No Club Has Gone Before...

The Final Frontier. You too, can embark on a journey to the unknown. Your transportation is not the Starship Enterprise, but one of the many special interest clubs. So climb aboard and get ready for a brand new experience.

Creativity soars high as you climb new peaks and reach for the stars. Gymnastics Club offers you the means of doing just that by displaying splits, handstands, back flips, performance on the uneven parallel bars, and executing routines on the balance beam.

As you journey toward your destination, pictures flash across your screen and the entertainment begins. The Chess Club presents its version of strategy techniques members

have devised on their own.

Your fellow space travelers enjoy the view and take pictures of selected individuals on the way. When they get developed, those "chosen" turn out to be the Bank Students experiencing collecting, counting, and returning correct change.

Making a big splashdown, you find that you have blazed the trail for other explorers. All students at Silver Creek are given the opportunity to develop values and attitudes which will become a part of their total expressions as they take responsible places in society as mature adults. Students are also benefited by receiving realistic experiences.

Exciting Sports Clubs

This year was a winner with new clubs and more planned activities. The Ski and Handball clubs were first introduced this year, and both clubs had a large membership. Along with the tennis club, the Ski and Handball clubs provided the type of excitement that only groups of this type could.

The Ski club offered its members the chance to make trips to the snow even though the year started out with very little snow.

The Handball club was the idea of Coach Capell some years ago but he was never able to get things rolling

until this year, when he mentioned the idea and many students showed their enthusiasm by joining the club. Over thirty students participated in each of the many tournaments that were held. The club was able to buy trophies and awards for the winners of the tournaments.

The Tennis Club, one of the older clubs at Silver Creek, has always been made up of students who love the sport of tennis. It offers an opportunity for the members to participate in a round robin, where all of the members play each other to determine who is the best.

David Santos played the number one spot on the City Tennis team as a freshman and is expected to Silver Creek to many victories this year also.

Intellects of Silver Creek

The members of the California Scholarship Federation worked very hard during the school year in order to qualify for this special club. Each year their hard work is rewarded by an annual trip, and each trip is a little different and always exciting. A trip to Yosemite National Park was planned for this year. Yosemite is always a fun and exciting place for everyone to relax. The club also had a great time with their fund raising programs. Their fund raising includ-

ed stationery sales and car washes.

The National Honor Society is not only known in California, but also throughout the entire country. Certain requirements must be met in order to become a member of the club, such as character, scholarship, service, and leadership. This past Christmas, the NHS went caroling at Alexian Brothers Hospital, which was a great experience for every one.

Writer's Cramp?

The Humanities Club is a group of highly intelligent, sophisticated, handsome, and witty students whose major interest is reducing the homework load in their college-prep classes. To date, they have been unsuccessful. They meet frequently for yearbook pictures, and retakes, and retakes. In addition they took two field trips, one in the fall and one in the spring, designed especially to get the students out of class for as many hours as possible. Mem-

bership requirements include the ability to quote Hamlet entirely. "Aye, there's the rub!"

Intravenous is Silver Creek's creative writing magazine. Representing a cross section of student prose, poetry, art and photography, Mrs. Dusa assures us that the yearly publication is graphically superior to its competitors. The staff collects, edits, does lay outs and prints the magazine on the school press. Any student may participate.

Creek's Sweet Melody Makers

The enthusiasm of the Silver Creek vocalists shone on the Christmas spirit when they performed with the band at Silver Creek High School and Quimby Oak Junior High School Christmas Concerts. Furthermore, these masters of the scale performed at several other concerts, exhibiting their fine tonal qualities.

Outstanding sopranos, Brenda Greenhaugh — the soprano section

leader, and Angie Tirado worked together to present "Silent Night" and "Greensleeves" as a duet for the Christmas concerts. Other exceptional members are altos, Cecilia Ornelaz, and Lavena Gonzalez, soprano, April Swepson; accompanist, Cathrine Johnson; and section leaders Greg Wang, tenor; Monique Stanford, alto; and John Oakley, bass. Industrious Raiders

There were many clubs and classes at Silver Creek that gave you a skill of some sort. But, there were three clubs this year that gave actual "hands on" experience.

The Auto Club taught all you wanted to know about cars.

The Wood Club prepared or in some cases discouraged many a student thinking about a career in a carpentry-related field.

Music Makers

The 1980-81 Silver Creek Band and Imperial Color Guard, directed by Mr. Fred Lang, were working hard long before this year's school season began. By beginning practice in the summer, they were better ready to represent the school in band competitions. Once school began, the band was busily working to raise money so that they would be able to attend the 1981 Orange Bowl Parade. They had many fund raising activities throughout the year, such as paper drives, car washes, candy sales and numerous other activities. All of these were planned and carried out by the Booster Club and band members. Unfortunately, the band was short on funds and was forced to stay home, but with the money they had raised they were able to buy much needed equipment and plan trips.

... and Sound Breakers

The Band and Color Guard traveled around the state competing with other bands in numerous shows. With all of the talented members in these two organizations, winning in competition came quite often. Winning Music Bowl II competition allowed Silver Creek to host the Music Bowl III in which many other bands competed. The Band took first place at both the Pleasanton competition and the Y.M.I. parade, with Drum Major, Curtis Costanza taking first place in Modesto, as well. The Color Guard showed an outstanding performance at all of the competitions. Many hours of hard work and determination helped make the 1980-81 Silver Creek Band and Imperial Color Guard what it is today.

 3 tbs. organization

1. Scatter long practices over summer oven. Add hard work and inventiveness. Stir well. Cover with organization and cooperation; continue until well done. 2. Remove the groups from oven (should be slightly worn, yet working together). Now add a cup of enthusiasm and a pinch of imagination and a dash of willingness. Beat well. Sprinkle with a cup of spirits and inspiration. Serve with uniqueness. Following such directions was a must for all performing groups, but what was done with the finished product was left up to the creativity of each organization. ver Creek. This year was no exception. Top hits such as "ANOTHER ONE BITES THE DUST" by Queen, "WHIP IT" by Devo, "I'M READY" by Kano, and "YOU ARE MY LOVELY ONE" by the Jacksons were the basis for their routines. Smiles of enthusiasm radiated on the faces of all who performed, whether it was at practice, performance, or just getting together for good times. Although even the best of recipes failed occasionally and trying to compose something original and unique took time, in the end, most agreed it was well worth the trouble. The Spirit of SC Lives on Proudly

The cheerleading squads have dedicated many hours working routines to perfection. Practices were held after school in the activity center, where they put to use knowledge acquired during their training at spirit camp in Santa Barbara.

The cheerleaders, who must hold a grade point average of a "C" or better, must also hold off any flunking marks. During the course of the year, each individual squad had changed routines and uniforms to help turn over a new leaf in Silver Creek's athletic seasons. As time passes, the spirit of SC lives on proudly.

Raiders Planning Ahead

Many people frequently wonder what MESA is all about. MESA stands for Mathematical, Engineering, Science Association.

MESA is an organization for outstanding minority students, who work very hard to stay at the top. To help with this, each student has a study session twice a week.

MESA isn't all work and no play. The members go on several educational field trips to places like the San Francisco Exploratorium and U.C. Berkeley. The big trip was a visit to the Solar Plant in Southern California.

"That little sting didn't hurt now, did it?" This was a common phrase uttered by the FMW during the blood drive.

The FMW was made up of a small group of students who plan to go into the field of medicine.

But despite their small size, the FMW managed to find a large group of healthy, breathing people, weighing over 110 pounds to participate in their blood drive. Anyone who fitted this description was probably approached by a Future Medical Worker.

Devoted Raiders

The students of Silver Creek devote much of their own time to participate in clubs. Junior Achievement, KSCH, and Maranatha Clubs are a few which require many hours of each member's time.

The Junior Achievement Club is made up of business orientated students who want to learn and prepare for the future by working in businesses where goods (hand-made and store-bought) are sold to make profit and to teach the students about the life ahead.

KSCH is a group of wild and crazy Raiders who love music and like to share it with the school. A large number of the members in KSCH are active in the Punk Club,

because that is the kind of music they like. The KSCH room is colorfully decorated with posters, album covers and stickers.

This year the 15 to 20 members of the Maranatha club met Mondays and Thursdays in room L-12.

The Maranatha club along with a F.B.L.A. club hosted a Thanksgiving day potluck, for the fifty hungry club members and teachers.

The Club is open to anyone. The lunch time meetings are a combination of Bible reading, Christian Fellowship and instruction.

Artistic Raiders

The Pep Club is an important part of Creek's activities. The function of the Pep Club was to attend the games of all sports, and to help the spirit leaders cheer the Raiders on. They also helped at rallies to lead their classes in the spirit yell.

If you like studying the stars and the Solar System, then you would have been a member of the Astron-

omy Club. This club deals with the business and questions of astrological topics. Magazines and other sources of informational material are collected in their library, along with their telescope.

The Technical Drafting Club members worked very diligently all year on sketches and drawings to enter into drafting competitions.

Original Raiders

This year at Silver Creek there were three clubs that most people would deem as "original," if not outlandish, to say the least.

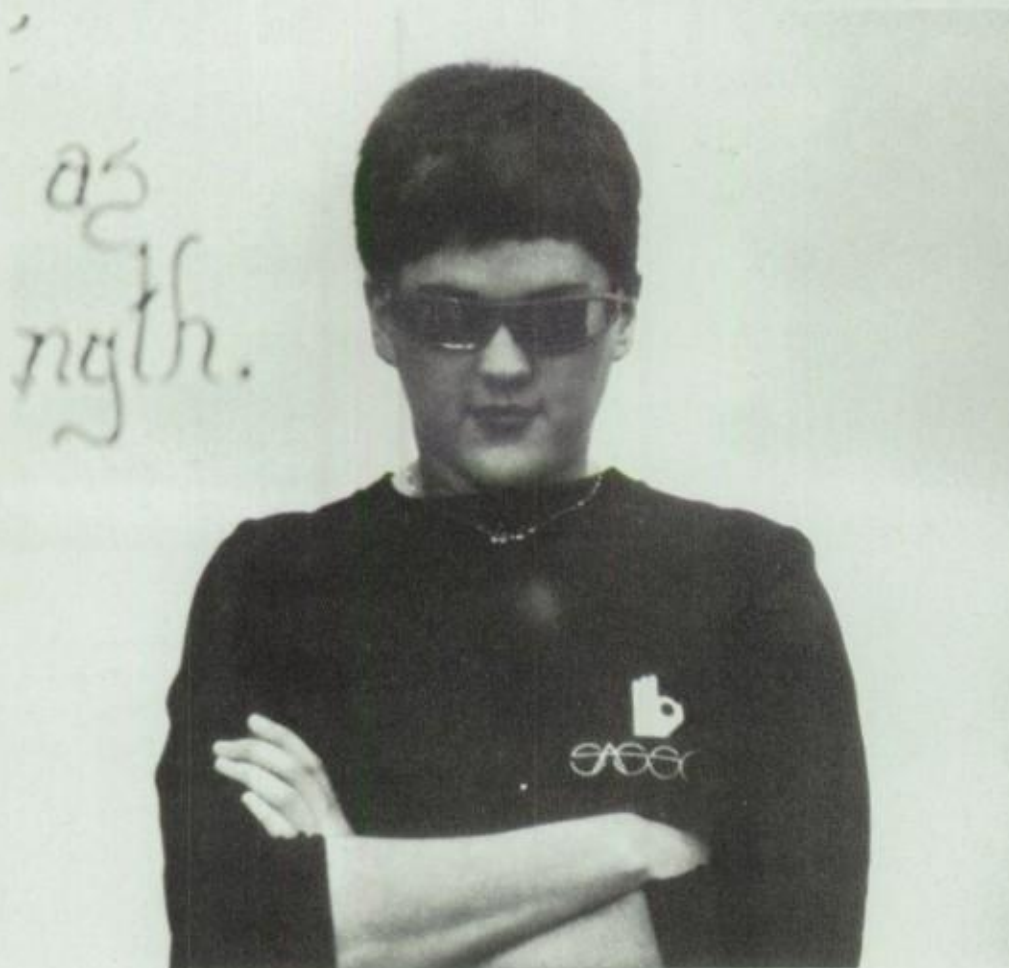

The first of these was the Photo Club. These kids took many field trips and came back with some exciting photos. They also sponsored a photo contest during the year.

The next original bunch of Raiders was the Savron's Sorcerers. This group got together every Tuesday and Thursday in D13 to act wild and crazy. The group liked to fantasize adventures and romances.

Last but not least, was the Punk Club. This outrageous group of punk rockers dressed strangely and listened to "New Wave" music throughout the year.

Makers of the Galleon

The Yearbook Staff of 1981 put many hard working hours into the production of this year's Galleon. The staff members scurried to get pictures, write-ups, and layouts in order to meet the omnipresent deadlines. Some staff members worked as industriously as bees, trying to get their projects done in time, while other members stared off into space and tried to let creativity flow through them.

If someone got stuck on an idea or project another helpful member was

always around to assist with their difficulty. Not only did the staff work on the Galleon during 5th and 6th period, but they also labored with unending dedication many hours after the last bells had rung. Layout artists, copy crew, and photographers worked together much like a well-oiled machine to make everything run smoothly without any hitches.

We hope you will enjoy this yearbook as much as the staff has enjoyed compiling it for you.

ACADEMICS

In order to survive in this cold, cruel world, youngsters have to have plenty of training and experience. Under the wings of concerned (and some not-so-concerned) teachers, the S.C. Raiders have learned by experience the puzzling, the baffling, and the unsolvable. There were several carefully laid traps and snares along the trail leading to good grades, designed to throw the best of students off the scent of knowledge and education.

These hapless creatures flocked together and formed protective study groups, in hopes that their prowling teachers would not catch scent of their ignorance and humiliate them. The breed of students who inhabited the domain of the science teachers, for example, grunted and sweated under a weary load of experiments, theories, and other data.

The conglomeration of students entrusted to Mrs. Howe's Expository-Writing classes suffered from sore fingers after having been subjected to scratching out a term paper. Another peculiar strain of student made the algebra and geometry classes his favorite haunt, where he was tripped-up by growing square roots, and attacked by creatures known as perpendicular line segments, theorems, and postulates. After having sadly made their way through these entanglements, roaming alumni had to cross that one last gorge called **THE FINAL**.

If the student built a solid bridge of good study habits, he passed the gorge with no problems. At this point, many teachers usually gave up and awarded the survivors with good grades.

This section is dedicated to those students who have found the meaning of "no pain, no gain."

Lurking Atrocities

Whirr, click, click, buzz, beep, beep! The computers are coming! Actually a few units have been residing here in the L, B, and H buildings for the past few years but 1980-81 was really the year of computers at Creek. SIP funds were used to buy the large Hewlett-Packard computer located in the library. This unit has been the key ingredient in a diversified program now being offered to students at Creek. Enthusiastic students programmed their Pet computers in order to play various games and solve problems.

What has orange and purple polkadots, three bugging eyes and a wiggly tail? We don't know, but

there was sure to be one stuck in a test tube somewhere in the science department. All kinds of weird creatures with names longer than their bodies, peered out from jars full of formaldehyde while curious Biology students peered right back at them. Those strange smells that permeated the classrooms in the A building often meant that some poor creature had given his life for science, or that Chemistry students were experimenting with "The Nasal Effects of Sulphur." All in all the science building will be remembered as that strange cavern "where no man has gone before."

Comprehensive Program

The faculty of the Social Studies and English departments have worked very hard to help enrich the minds of the S.C. Raiders.

The Sentinel, for example, has published many articles concerning controversial issues in order to provide us with food for thought.

Many of us were introduced to new ideas and cultures in our Social Studies classes, and later on, we were encouraged to write about them in our English classes.

Yearbook students have worked hard to add many extra features in the '81 Galleon, and produce another award winning book.

Through this coordinated, comprehensive effort of these departments, the S.C. Raiders have been molded into the future's most competent leaders ... or at least that has been the goal.

Transactional Analysis is definitely a fad of today. Susie Camarena displays two excellent psychology projects.

Remember trying to make relief maps in World Cultures? Tien Ngyugen and Mi Hyun Kim have mastered the art.

Developing Vocations

The decorative arts class has completed many projects such as stitchery, latchhook rugs, and terrariums. Projects such as these provided fun and creative learning experiences.

The business classes have taught the student many aspects of the business world, such as managing a budget, typing, notehand, and cashiering and sales. Business skills help the student prepare for the future by giving them the experience and the knowledge of the business world.

Cooking is a task that takes more practice and imagination than it seems. Learning measurements and meal planning takes time and effort. Cooking introduces a student to many different cultures by teaching cooking methods of foods from countries around the world.

The shops helped the students learn different types of vocations and better prepares them for future jobs. The students are introduced to a few of the basics, and later are allowed to make projects on their own. They must take the required first-year shops and after completing these courses are able to take more advanced shops.

A Note From the Top

1980-81 has been an extremely challenging yet rewarding year. There were many tasks to accomplish and much to learn. But, with the help of understanding students, teachers, and parents, we reached our goal.

This year, the student body has accomplished much in the way of academic excellence, student government, and athletics. I feel that the students, staff, and administration of Silver Creek High School must continue to work as a team in order to realize the full potential of our school. I look forward to next year with great anticipation. I hope each of you will be proud to have been a part of this exceptional opportunity for education.

Unique Individual

It's the first day of school and you have science homework: build a protective cover to prevent a raw egg from breaking after a 30-foot drop. This doesn't sound like average Freshman homework, but those who have taken Mr. Okuda's Introduction to Science remember "the egg-drop experiment" with special fondness.

This is all part of Mr. Okuda's unique style of teaching. Throughout the year, students work on different projects as well as regular assignments in both Biology and Intro. This maintains their interest in science, which can be boring at times.

However, Mr. Okuda's life does not revolve entirely around science. He owns a Formula Vee Road Racing car in which he is sometimes seen at Laguna Seca Raceway. Add to this such hobbies as ski-racing, rock-climbing and scuba diving; and it is evident that there really is life for a teacher after the final bell rings.

Teacher or Student?

Miss Debbie Palacios is a graduate of Silver Creek, who from the very start, became readily involved in the school. She helped to establish the C.S.U., and became Commissioner of Rallies.

In 1977, Miss Palacios began to work here at Creek as a bilingual instructional aid. By 1978, she was teaching two bilingual classes in World Cultures.

Miss Palacios has devoted much of her time to C.S.U. as an advisor. As a result, many students have come to know her not only as a great teacher, but as a friend as well!

Wilson's Wizards

This year, the Silver Creek Science department offered a new course — Advanced Placement Chemistry, instructed by Mr. Wilson. The class enabled students to earn credits for college.

Student feelings about AP Chemistry were mixed; however, the general feeling among the Raiders could probably be summed up in a familiar message seen earlier this year on Silver Creek's marquis: "OH, NO, MR. WILSON, I DON'T WANT TO BE A SCIENTIST ANYMORE."

"Take Advantage of Opportunities"

Her Notre Dame High School Coach was all the influence Miss Linda Golden needed to become a successful Coach. She says smiling, "I love to teach, and someday I would like to start a school of my own."

During the summer months, Miss Golden teaches a C.P.R. class at The American Red Cross Association.

A person with a wide range of interests and hobbies, Miss Golden enjoys riding her Honda Hawk 400CC and loves sports, especially racquetball. She is confident about taking a trip to Europe but to this date, doesn't know exactly when this will take place.

Many people are aware of Miss Golden's love for poetry. Here is a poem she has written herself and would like to share.

Today

This very moment is all
The time I have.

I have no way to stretch time,
To get one second more.

I have no way to save it,
Behind some secret door.

I have no way to stop time,
As it goes rushing by.

I cannot even slow it down,
But still, I always try.

I have only cherished memories,
— stolen pieces out of time —

To remind me of the love I've shared,
And all the happiness that is mine.

Today

This very moment is all
The time we have.

Be - I wish you success always. Strive to be your best self. Never settle for less than you can achieve - don't cheat yourself. You have so much to share with others. Be honest to yourself, but especially... Be happy! - Linda Golden

School Improvement Provides Needed Programs

The School Improvement Program is designed to give students, parents, and staff the opportunity to improve our school in the areas of curriculum, classroom, and school environment.

In order to insure that the students, parents, and staff members are involved in the planning, implementation, and evaluation of the program, a School Site Council was formed and has been very instrumental in providing guidance for our school improvement efforts.

In the area of curriculum there have been summer workshops to improve individualized instruction.

There has also been staff involvement with workshops and service programs to implement Multicultural and Career Education. Other courses which have been enhanced and have experienced an increase in student achievement are Advanced Placement Chemistry, Physical Education, and Computer Learning.

Implemented to improve school-community relations, the Student Orientation Handbook has received extensive positive comments. A Phone Recorder with a direct phone dial (274-6689) gives a weekly listing of school activities.

COMPETITORS

This year, the 1980-81 Silver Creek athletes reached the zenith of potential. Like strong young bucks protecting their rightful territory, our Raider sports stomped over all opposing herds of jocks who dared threaten Silver Creek's claim to superior athletic prowess. In sports, the theory of "survival of the fittest" is always prevalent, and those who cannot measure up to high standards of athletic excellence will fall into the realm of extinction.

Bestowed with natural cunning and instinct, Silver Creek athletes thrived under the rigorous punishing trials that their coaches put them through, lest they be caught in the sticky web. Raiders hoofed their way over to fields and courts where they strived to be leaders of the pack. They smashed the feathers off of their badminton birdies, pounced on their hapless wrestling opponents, and skinned the fuzz off their tennis balls. In track and cross country, our Silver Creek gazelles sprinted their way to victories against their platypus-footed opponents; our slick swimmers glided their way to many aqueous victories, while opposing teams vainly flapped their fins.

Mixed in with the numerous victories were the disappointments, and dejected Raiders limped home to nurse their wounded egos. But like true Lords of the Jungle, Silver Creek athletes bounced back into the heart of the battle with energy and determination.

CCS Once Again

Under the coaching of Mr. Tomasello, the Girls' Swim Team practiced at 5:30 am and 2:15 pm. This kind of dedication helped the Raiders finish with an outstanding season, placing second in MHAL and first in the Independence Invitational Relays. There were many talented newcomers and returning swimmers who helped to end the season with a 9-1 record.

Nine members of the team: Arlene Abrigo, Jeni Bradley, Bonnie Breslin, Tammy Cleveland, DeAnka Dopler, Paige Dreiger, Dana Fife, Glynnis Steiner, and Kelle Weber had the honor of swimming in the prestigious CCS. Most of the girls placed within the top 10 in their event.

Congratulations on a fantastic season.

Record-Breaking Score

The 1980 Water Polo team featured a real team concept in its play patterns this year. There were no all-stars, but a lot of unselfish players with three things in mind: good defense, good offense, and the will to win. The silver fish won eight games and lost seven with a record-scoring thirty-one goals against James Lick High School and Overfelt High School.

Holding down and anchoring the defense was goalie, George Weber, with able assistance from hole guard, Scott Harding. Outstanding offensively were breakers, Kurt Cochran and Wayne Harding. Setting the hole, which is the heart of the offense, was Bill Nielsen.

Most Valuable Player went to George Weber, Scott Harding, and Kurt Cochran. The most improved player award went to Wayne Harding.

Individuality Proves to Be a Strange Bond

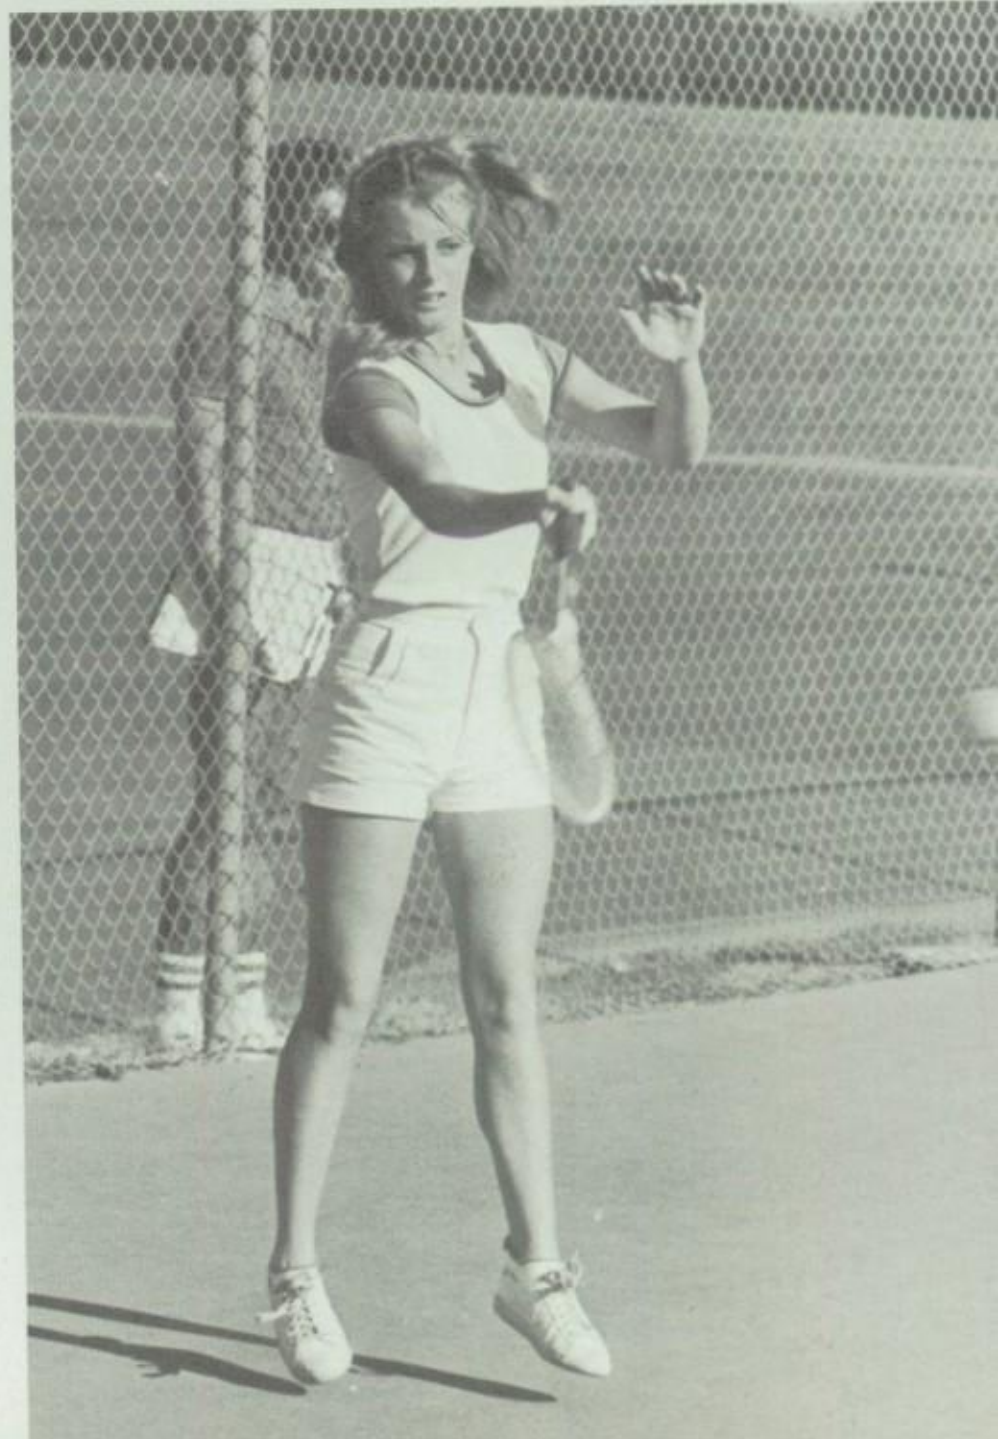

The assertive Women's Tennis Team racked up three 7-0 shut outs and two, 6-1 wins this year, winding up the season with a 6-4 record, which was enough to finish 4th in the League. The team was very dedicated and spent many long hours of practice together. Greer Moberg, number one singles, went undefeated in the league to hold a perfect record of 10 wins, no losses.

Most Improved Player went to Nancy Ventry, along with Greer Moberg who was elected as the team's Most Valuable Player. With Coach Hulse giving 100% of herself to her team, the upcoming years are sure to be strong and memorable ones.

Strong Start Showed Promise

With an abundance of talent, this year's Varsity Raiders took on an exciting season. Outstanding performances came from such players as Tim Peoples, Al Satele, Larry Weldon, Rich Granado, and a host of other Raiders. Super Star, Tim Peoples, was placed on the All League team. The team finished up the season with a hard-earned 4-4-1 record.

With eight-five percent of this year's team returning, Creek will certainly be in contention for top honors in '81.

Competition Seemed Awesome

This year proved to be a competitive one for the Frosh-Soph Football team. Quarterbacks, Andreas Paden and Ray Smith, led the team, with the help of wide receiver, Thomas Jackson. Charles Greer also contributed greatly to the team. The coaches were very pleased with the effort the Frosh-Soph team put forth and felt that next year's teams will be greatly strengthened by the talents of these young men.

1981 Frosh-Soph League Champions

The Frosh-Soph Wrestling Team had an outstanding season. They were undefeated in league and won the Southern Division Team Championship. Their season record was 9 wins and only one loss. Their loss was by only one point to a very tough Monte Vista Junior Varsity Team.

Ringo Torrez was the Frosh-Soph Most Outstanding Wrestler. His season record was 16 wins and 1 loss. He was undefeated in league and took 1st in two tournaments.

He also won the Runner Up "Most Pins" trophy with 11 pins.

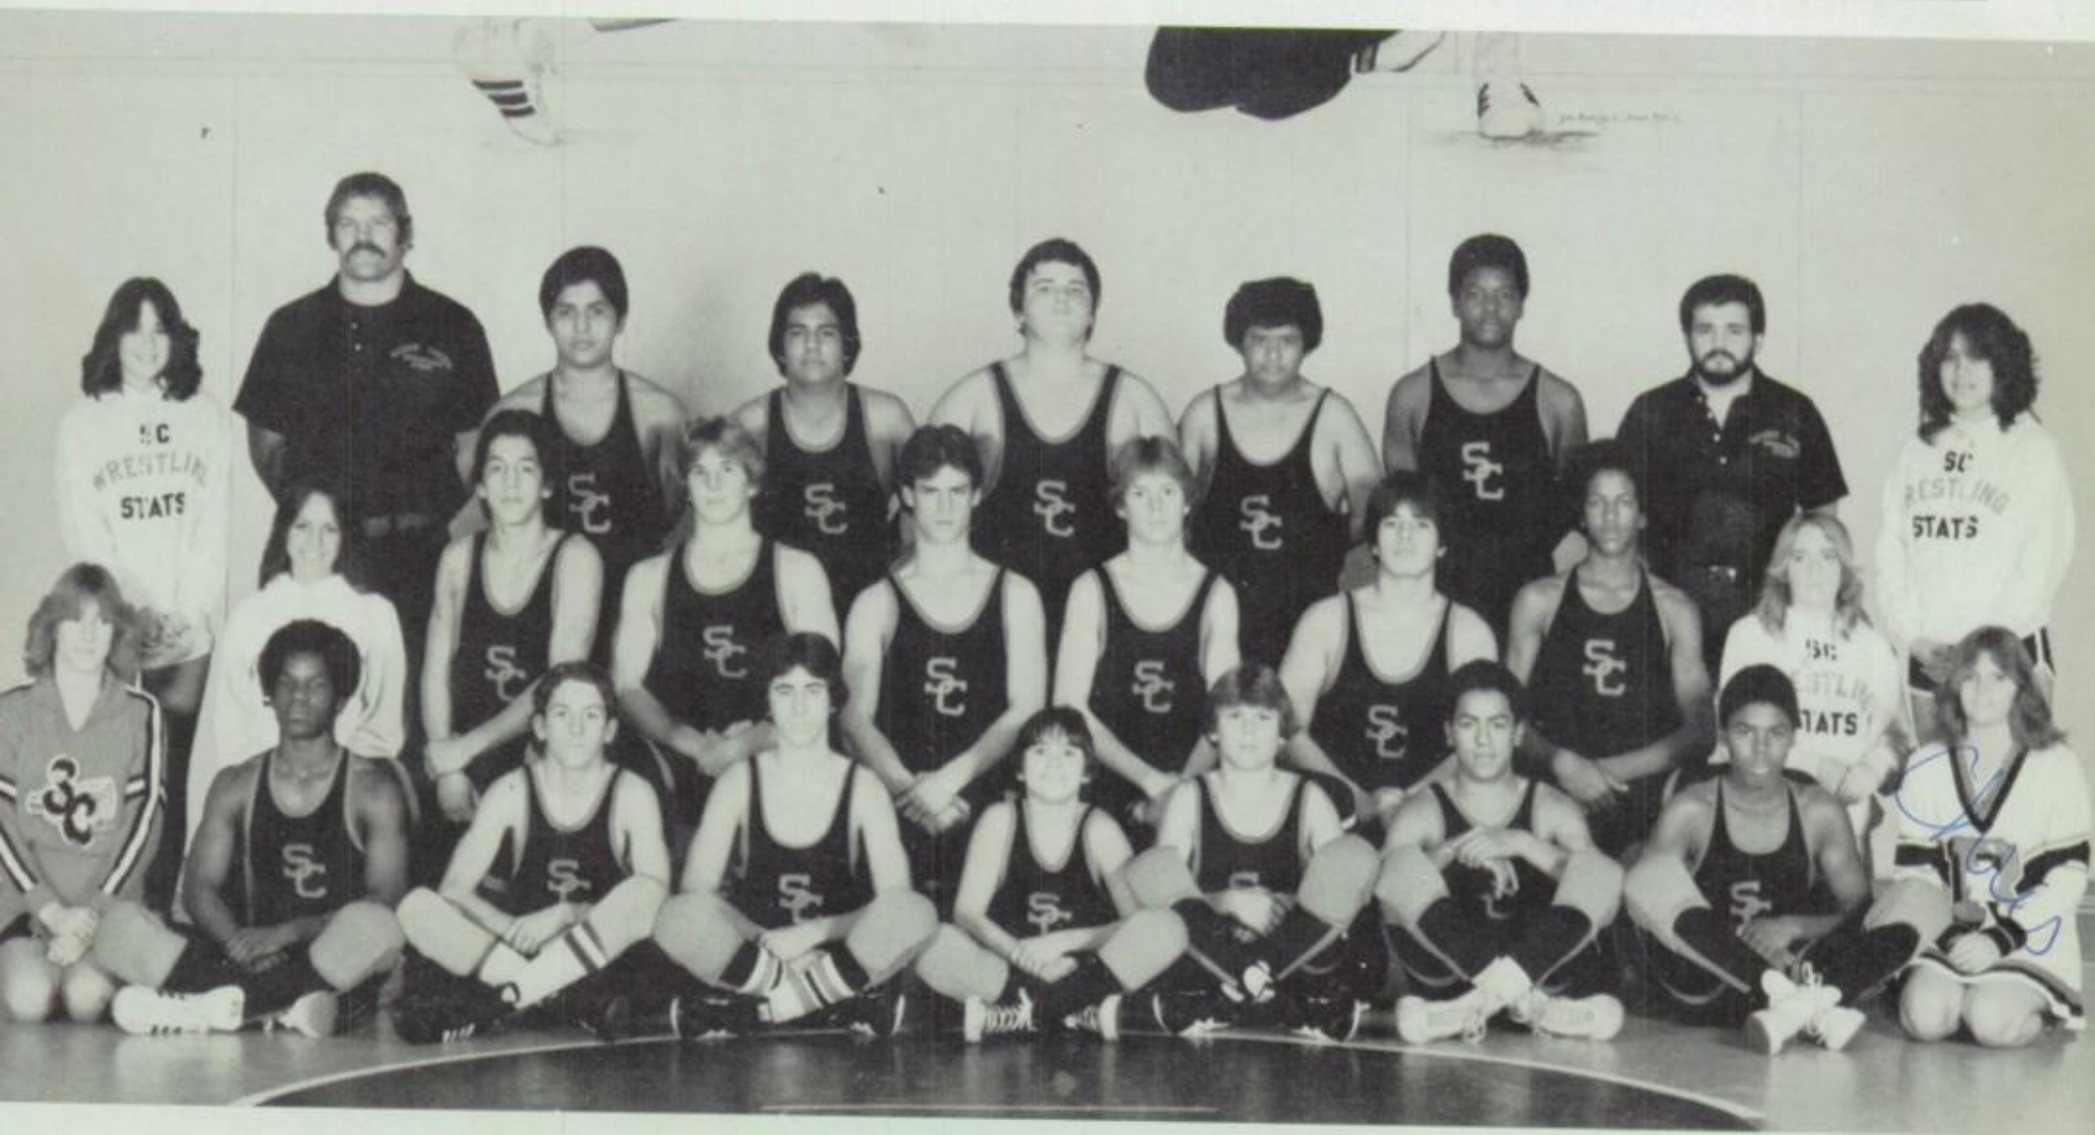

Buddha Valis was the "Most Improved" Wrestler on the team. As a first year wrestler, he placed in four tournaments and was undefeated in league. His season record was 17 wins, 5 losses, and 9 pins. Scott McKain won the "Most Pins" trophy with 13 pins. His season record was 16 wins, 4 losses, and one tie. He also was undefeated in league.

Johnny Padilla did an awesome

job as a Freshman. He was undefeated in league and placed in four tournaments. His season record was 15 wins, 6 losses, and 3 pins.

Stephan Barnes was still another Frosh-Soph undefeated wrestler. He placed in three tournaments. His season record was 17 wins, with only 4 losses.

These fine, young wrestlers were selected as team captains and are expected to strengthen the Varsity Team next year. Congratulations!!

Moving Up!

The young Raiderettes' Cross Country team, with only two upper-class women this year, finished second in MHAL and competed in Region III Championships. The team was led by Aida Stearns, who captured the MHAL and Region III titles and then advanced on to be the sole representative of Silver Creek in the CCS Championships. Another strong runner, Kelly Nicholson, placed seventh in MHAL finals, helping the team place second in the overall standings. Gaining needed confidence and experience, Alice Leon, Barbara Jackson and Julie Calvo improved tremendously. Losing only one runner next year, the girls should have a winning season. Also watch out for Kathy Riley and Susie Manning; they are moving up.

S.C. Superstars

Flying down hills and over flat land on the 2.5 mile course at Alum Rock Park, Silver Creek's young and inexperienced cross country team placed fifth in the MHAL finals and advanced to Region III, where they placed third. A week later the Frosh/Soph team competed in CCS where for the second time in Silver Creek history the Frosh/Soph team captured the CCS title.

This title was earned through many miles of hard running by some outstanding runners. Leading the team was Orlando Biggs, who took second in MHAL finals, Region III and CCS. James Riley finished third in MHAL, Preston Windham finished fourth and Gilbert Granado finished fifth. Other contributors on the Frosh/Soph team were Kafi Asamoach, Tony Barra and Scott Sedlack. Leo Bonilla, Jim Haugh, Jessie Corona and Danny Mendoza also competed for the varsity team this season. Keep up the great work.

Young, But Tough

Even though this year's volleyball team was a young one, they showed the skill of a team that has played together for years. The quality of their spikes and slams contributed to a good season. Valree Smith took the Most Valuable Player award for her determina-

tion to win, and her leadership of her teammates. Traci Weaver was awarded Most Improved Player, for her great improvement in skill. The experience that the team acquired this season will undoubtedly help to make next year's season more rewarding.

A Challenging Experience

The 1980-81 Varsity Soccer season was both exciting and challenging. This year the league was extended to include all eleven schools. Some of the most vigorous matches were against Independence and last year's undefeated Santa Teresa.

The majority of this year's team was new to the league, but with knowledge of the game and the experience of

returning seniors Jerry Valles and Danny Garcia, the team was better than the 5-5 record shows. When looking back at the season, Mrs. Howe was quoted as saying, "We should have won every game, but we didn't."

The highlight of the season came when Creek defeated the top-ranked Santa Teresa Saints, handing them their only loss of the season.

Despite the disappointing record, Jerry Valles and Herbert Martin were awarded to First Team All League. In addition, Danny Gracia and Chito Sanchez recieved Second Team All League and Bryan Hoo and Francisco Castillo received Honorable Mention.

Mrs. Howe is hoping that with the experience gained this year, next year's season will be more successful.

Spirit and Success

The Girls' Soccer Team had another outstanding season, finishing with an 8-2 league record. In spite of the final score in these two games, the girls both outshot and outplayed their opponents.

The Senior standouts who gave a tremendous final season were Larry Rocha, Debbie Zamora, and The Most Improved Player, the goalie, Isabelle Gamarra. Valree Smith along with Brenda Richmond, were Junior offensive and defensive standouts.

The backbone of the team were the Sophomores. Izumi Berk was awarded the Most Valuable Player. The offense was sparked by the team's leading scorer, Kathy Carson.

Silver Creek carried four All-League players, more than any other team.

With many returning players, Coach Runyon is looking forward to a hard-working, spirited team.

Commendable Season

This year's Varsity Wrestling Team was the finest in Silver Creek's history. They placed third in the Mount Hamilton Athletic League Tournament, and individually the team members earned 32 medals. The team was edged out of first place in the Southern Division only because of the untimely injury of the Varsity's Most Outstanding Wrestler, Silver Creek's pride, Rick

Ealy. Co-captain, Rick Ealy took first in 3 tournaments, including the MHAL tournament, and the Region III CCS tournament. His overall record was 23 wins, 6 losses, and 8 pins. Rick also won the Most Varsity Pins trophy.

Tony Sanchez who is a junior was selected for Most Improved Wrestler. He placed in four tournaments and was co-captain of the

varsity squad. His overall record was 15 wins, 8 losses and 1 tie. Dave Price, also a junior, won the Runner-Up Most Pins trophy with seven pins. He was also co-captain. This year's accomplishments were a tribute to them, in spite of the relative inexperience. This year's seniors will all surely be missed next year.

Dazzling Dribblers

Silver Creek girls' varsity basketball has again represented our school remarkably well. One of the highlights of their season was receiving for the third consecutive year, the sportsmanship trophy in the Anderson tournament. T.C. Brown, a junior and high scorer on this year's team, was nominated to the All-League Team. Other outstanding players were Sena Crocker and Tonja Marsh, senior starting guards, Trinnie Miles, senior starting forward, Kathy Ventry, senior and Cari Kakaio, junior, alternating as starting forward. Unmistakable Progress

Thunka-Thunka-Thunka-Swoosh! Whap! Another victorious basket for the Junior Varsity basketball team! These sounds permeated and resounded in every gym across the district as the Silver Creek Girls' Junior Varsity Basketball team made their mark in basketball history this season.

Nancy Ventry, forward; Kathy Arnold, forward; and Carin Taylor, guard led the J.V. team to a fifth place overall league standing.

Silver Hoops

Our Varsity Basketball team had a very productive season this year. Their overall win-loss record of 15-8 and 7-3 in league play gave them a second place berth in league competition. High scorers for the season were seniors Raymond Holland and Robert Tersigni, who averaged 13 points a game. Next year's team should be outstanding with all remaining players returning. The 1981-82 spotlight will be on this year's starters: Tim Peoples, Steve Cotton and Craig Carter. In addition to this fine trio, keep an eye on Larry Weldon, Shawn Lightning, and John Washington. With such a strong background, next year's team will once again be strong contenders for the crown.

High Goals

The Frosh-Soph basketball team had a fantastic season. Our hard-working dribblers passed and slam-dunked their way to fourth place in MHAL and had several close contests during all their games. David Smith and Sam Dean matured during the season and were instrumental in this year's closing victories. This year's frosh-soph team will be the key to next year's winning season. Smashing Season

Is it a bird? Is it a plane? Is it superman? No, but it's faster than a locomotive because it's a Silver Creek Badminton birdeee!!!

That was the war cry of the 1981 birdie swatters, the alias badminton team. These dedicated girls dazzled the opposition by aggressively but patiently crushing them stroke by stroke, smash by smash.

Super singles players Arlene Abrigo, Kathy Ventry, and Nancy Ventry led the team to numerous victories throughout the season, while doubles teams enhanced our record with even more victories.

Bright Year

This was a fine year on the Silver Creek tennis courts. With returning lettermen Davie Santos, Robbie Brooks, Dave Guraydin, John Fedor, Joe Wallace, and Ferdinand Manantan we had a very balanced and deep squad.

Dave Santos was again among the top four players in the MHAL. He was the first Silver Creek Player to go to CCS finals last year and we have high hopes that he will again represent us at CCS.

This year's FS team is again backing up the varsity squad. They are the players of tomorrow.

Orange and Black Flash

Although this year's track and field team was small they had an awesome season. With many outstanding athletes returning, the team showed a lot of depth in the track events. Anita Bolton, Valree Smith, Aida Stearns, Robyn Littlefield, and Felicia Smartt main-

tained high Orange and Black standards in their track events. The small but mighty Raiderettes struggled in the field events and hurdles. Stephanie Townsel led the shot and discus with newcomers Kathy Riley and Michelle Choyce. Another big

surprise for the team was Debra Nelson, our freshman high jumper. Since this year's team will be losing only two seniors next year, they continue to uphold Silver Creek's reputation of excellence in track and field.

Raiders Strive for Excellence

Talent and determination filled the 1981 Raider Varsity Track season, if not people. Though the team was sparse and small, they made up for it with ability. Returning standouts Rory Flint, Ray Holland and Tim Peoples led the way to MHAL and the state meet.

The 440-relay team made an outstanding showing all during the season, along with Rory Flint, who shattered the school record by leaping 6'10" in the high jump. Herbert Martinez, Jeff Almarez, Babu Mann, and Dave Price showed the way in the discus and shot put events and distance runners Gilbert Granado, James Riley and Preston Windham captured the mile and two mile runs. All in all it was a fine season for our gifted team, with much experience gained.

Diamonds Are a Girl's Best Friend

Led by Coach Hart, the 1981 Varsity Softball team had several outstanding returning players. Seniors Diana Ireugas and Lori Martinez, as well as Juniors Gay Dalton, Stacey Jones, and Sophomore Leslie Rose, offered stability and leadership for the team. The team showed promise to better their position in the MHAL from the '80 season.

Jeanette Velasquez and Brenda Richmond were both outstanding pitchers who helped to improve the Raider record. Hustle and team-play have become the by-words for the 1981 Raider squad.

New Talent

Under the direction of Coach Terry Martwick, the 1981 Junior Varsity softball team was full of new talent, personalities and Silver Creek pride. It included many skilled and hardworking athletes with a common goal: to do their best. All of the girls have worked very hard, and their season reflected it!

Baseball Stars

The Silver Creek Varsity Baseball team was a very experienced one, with returning All-Leaguers, Adam Tiscareno and Joaquin Gabriel and honorable mentions George Verdugo and Joe Wesley, leading the way. These players, along with the rest of the talented and agile team, practiced many long hours after school, under the disciplined coaching of Mr. Rodriguez, to become the top contenders for the MHAL title. Opening the season was a no-hit thriller pitched by Joaquin Gabriel against last year's champions, the Independence 76ers. The team went on to batter their opponents one by one. With such a hot team, there was no way they could miss.

The Frosh-Soph Baseball team, consisting of almost all new players and much ability, worked extremely hard all season long to produce an exceptional year. Much experience was gained game after game, and Coach Garcia feels that the Frosh-Soph players will contribute greatly to next year's Varsity team.

Whoooshhh — !

The barely-visible arrows that just zip-zapped across the water before your very eyes were members of this year's swimming squad. According to the distinguished Coach Capell, this team was definitely small, yet mightee!

This group of muscles and tendons was strong enough in all eleven events to take top honors, but because of the small number of members, it was difficult to take seconds and thirds needed in order to win the league championship.

Outstanding members for the Raider Silverfish this year included George Weber swimming the 100-back; Wayne Harding in the 100-back; and Curt Cochran in the 50 and 100-free, and the 100-back. George Weber also placed highly in the CCS Finals.

The Silverfish worked long and hard this year to make themselves one of the fiercest schools of fish in this league, and they succeeded.

Upper Left. Glen Firchow shows off his grace and style in his back-dive.

Center Left. Who says swimming isn't a vicious sport?? Don't ever approach George Weber, one of the most outstanding butterflyers in Creek's history, with a softie attitude toward *his* sport!

Left. Tony Bradley sprints to the finish line as he completes one of his freestyle events.

PEOPLE

They crawled out of every crack and crevice during break and lunch. You could see them wherever you went. What were they? PEOPLE! Upon taking a tour of this people-infested school, one can see a variety of cliques and creatures crawling around.

The terrain near the quad area, for example, was never free of little wandering clumps of cowpokes in cowboy hats and football jerseys. A few dozen paces to the left of the quad, one may have found starving mobs of students partaking of unique foods such as Doritos and 3-Musketeers bars at the snack machines. Meanwhile, the braver members of the herd stood in lines to sample the exotic offerings of the school cafeteria.

The leaders of the pack, such as Mr. Ordaz, Mr. Schlussel, and other head honchos took refuge in the sacred shrine commonly known as the Attendance Office, where they made decisions vital to the school.

In between classes, a formidable species of person wandered up and down the walkways, claiming every inch of the school's range as their own. Many a juvenile pup was escorted to class by Climate Aides, Mike Bonds and Greg Tomasello.

Such an assorted menagerie of people milling around the school transformed Creek into a vivid and exciting educational facility.

Opposite Page. When you need help, ask for it, and there will be someone there to give you a hand. Mr. Brooks helps Lonnie Moore with an Algebra assignment.

Top. Lunch lines could be long and frustrating, but David Farris appears resigned to the wait.

Left. Raiders have always enjoyed talking in class, at brunch, or anywhere. Patricia Mendoza keeps up the tradition everywhere.

Above. Terri Williams, like many other Seniors, came to listen to Norman Mineta, who presented an informal talk on campus.

Together We Are...

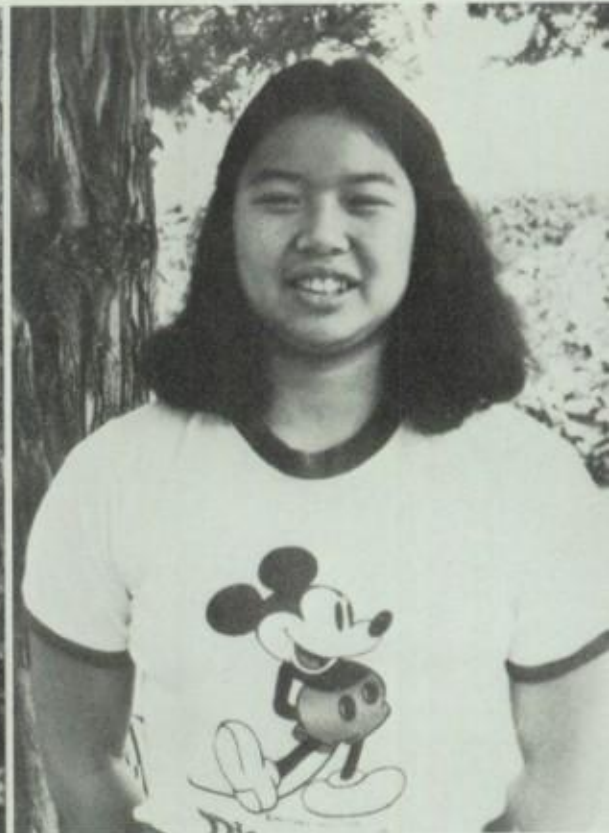

... the Senior Class of 1981, the triumphant June Graduates. We deserve that final moment for enduring four years of work and study, but we shall miss the relaxing, eventful days that were ours and we shall shed a tear for one of our most emotional, proud, and last moments.

We have worked steadily for all our activities, cheered as one in the rallies and even helped a friend to his feet.

But we will never be forgotten, for as long as we open up these books to reminisce on our past and wish we were back in 1981, we will always be remembered.

Friendly Faces in High Places

Many of us may remember passing by Silver Creek last summer and taking a peek at our activity sign, which happened to read: "Live in concert at the amphitheater: Commodores, Heatwave, E.W. and F., George Benson and L.T.D."

Mr. Dusek received many calls from people asking for tickets and George Verdugo and Rick Garcia received many calls from Mr. Dusek asking what was going on. Well, creativity was the name of the game for George and Rick, who were the Delegates at Large on the Student Council this year. Almost every week they changed the sign and wrote something humorous to lift Silver Creek's spirit.

The Power of The Pen

The Sentinel has definitely taken a turn for the better in 1981. With Barbara Esquivel at the helm, the newspaper staff rolled outstanding biweekly literature off the presses. Barbara dedicated many long hours to proofing, cropping pictures, editing and drawing quadpacks, so that every Raider knew what was happening around school. Great job, Barbara!

Literary Labors

Mrs. Dusa's Humanities classes, after studying such classic works of literature as Shakespeare's *Hamlet* and Sophocles' *Oedipus*, had the chance to demonstrate what they had learned by doing projects. Many of these projects were excellent, ranging from Elizabethan foods to hilarious spoofs of scenes from *Hamlet*. A few Seniors even put in a little extra effort, such as Laura Drown, who built a beautiful model of the Globe Theatre. Enthusiasm for the Humanities was also shown by Sheri Ducummon and Isabelle Gamarra, who completely outfitted a mannequin in Shakespearean attire.

Dream Trip to U.S. Comes True

Hello, my name is Marie Lassesson. I'm from Sweden, and I am here as a private exchange student. I'm staying with the Cleveland family, who have really made me feel at home. My sister, Tammy, is also a Senior at Silver Creek. Going to high school is a big difference from going to a gymnasium (this is our school) in Sweden. I have learned to enjoy school; my teachers and classes are great. I have already made some really good friends.

I think I'm going to learn a lot about both myself and about a new country and its people.

I would like to thank my family in Sweden and my host family here for making my dream come true.

What's Your Score

"BOY, DO I FEEL DUMB!" Many Seniors such as Dan Brown, who is consulting his handy SAT guide in preparation for the big event, felt this way after taking one of the standardized tests for college, the SAT or the ACT.

Taking one of these tests meant a long, tedious application and a ridiculous sum of money for the Admissions Testing Board.

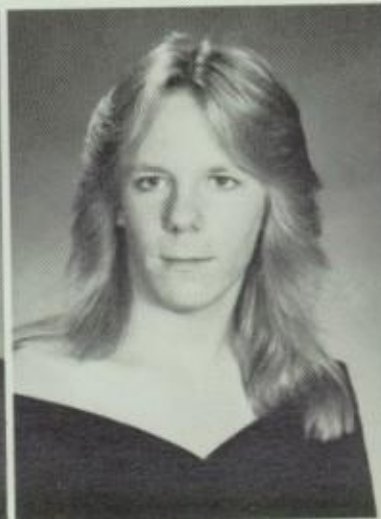

Sitting in the same hard seat for four hours didn't agree with most Seniors, but they bore it patiently. Each knew that his or her score was part of the formula for success and happiness in the future.

The Spirit of '81

Togetherness is an appropriate theme that fits in with the Class of '81. We've always been a close group, pulling together from the very start in our freshman year to take second place in the float competition, successfully sponsoring our own dance as sophomores, winning many rallies (including the Homecoming Rally) as juniors, and winning almost everything as Seniors.

The class of '81, to me, is a spirit of harmony, everlasting friendships, hard work and dedication. It is a group of unique individuals, collectively creating a glowing power, unequalled by any other class. The Class of '81 had so much to give, and it was evident in all we did, whether it was sports, academics, band, drama or school government.

To the senior class of 1981 — I congratulate you, and I thank you for four wonderful years here at Silver Creek.

A Price Paid for Freedom

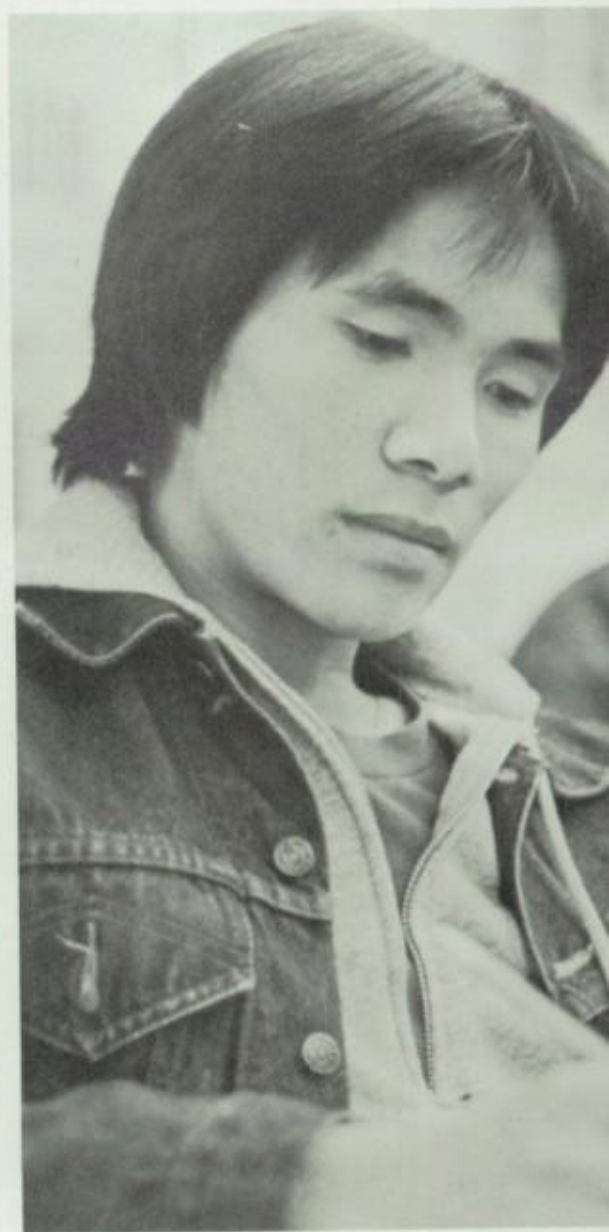

Thien Tran escaped to America from Vietnam when his country was overtaken by the Communists two years ago. Life in Vietnam was very harsh for Thien, who often witnessed many young people being taken away as prisoners or executed by the Communists. His family had tried to escape several times before, but failed. Finally, in April of 1978, they succeeded, using a tiny fishing boat to sail from Hainam to Hong Kong, and from there, to the U.S.

His family endured many hardships: lack of food, storms, and muddy waters. "Was my family crazy?" he questioned. "No, we weren't. We wanted to find freedom. We would rather die than live in such conditions."

Thien's family first arrived in Idaho, then moved to San Jose, where he attended Independence. He then transferred to Silver Creek. Thien enjoyed Creek much more than IH, even though he left many friends behind. He especially liked his teachers here, including Mr. Martin, Mr. Bosque, and Mr. Bell, who all helped him learn English.

Thien's hobbies include sports, music, reading and math, and his goal is to become a computer engineer.

Thien, we welcome you and your family to America and hope you find nothing but happiness and opportunity in your new country.

“Whatever Turns You on”

“Wow, I heard that class is fun!” This expression was a common method of selecting elective classes at Silver Creek. While many Seniors chose to follow a rigid academic schedule in preparation for college, many others used electives as a way of expressing hidden talents and interests.

Students who were artistically inclined chose to take art or ceramic classes in which many painted and sculpted masterpieces were produced. Those with linguistic talents took Spanish, French, or German, broadening their horizons by learning the language and culture of another country.

Tina Bastone exhibits her artistic ability by molding a mug.

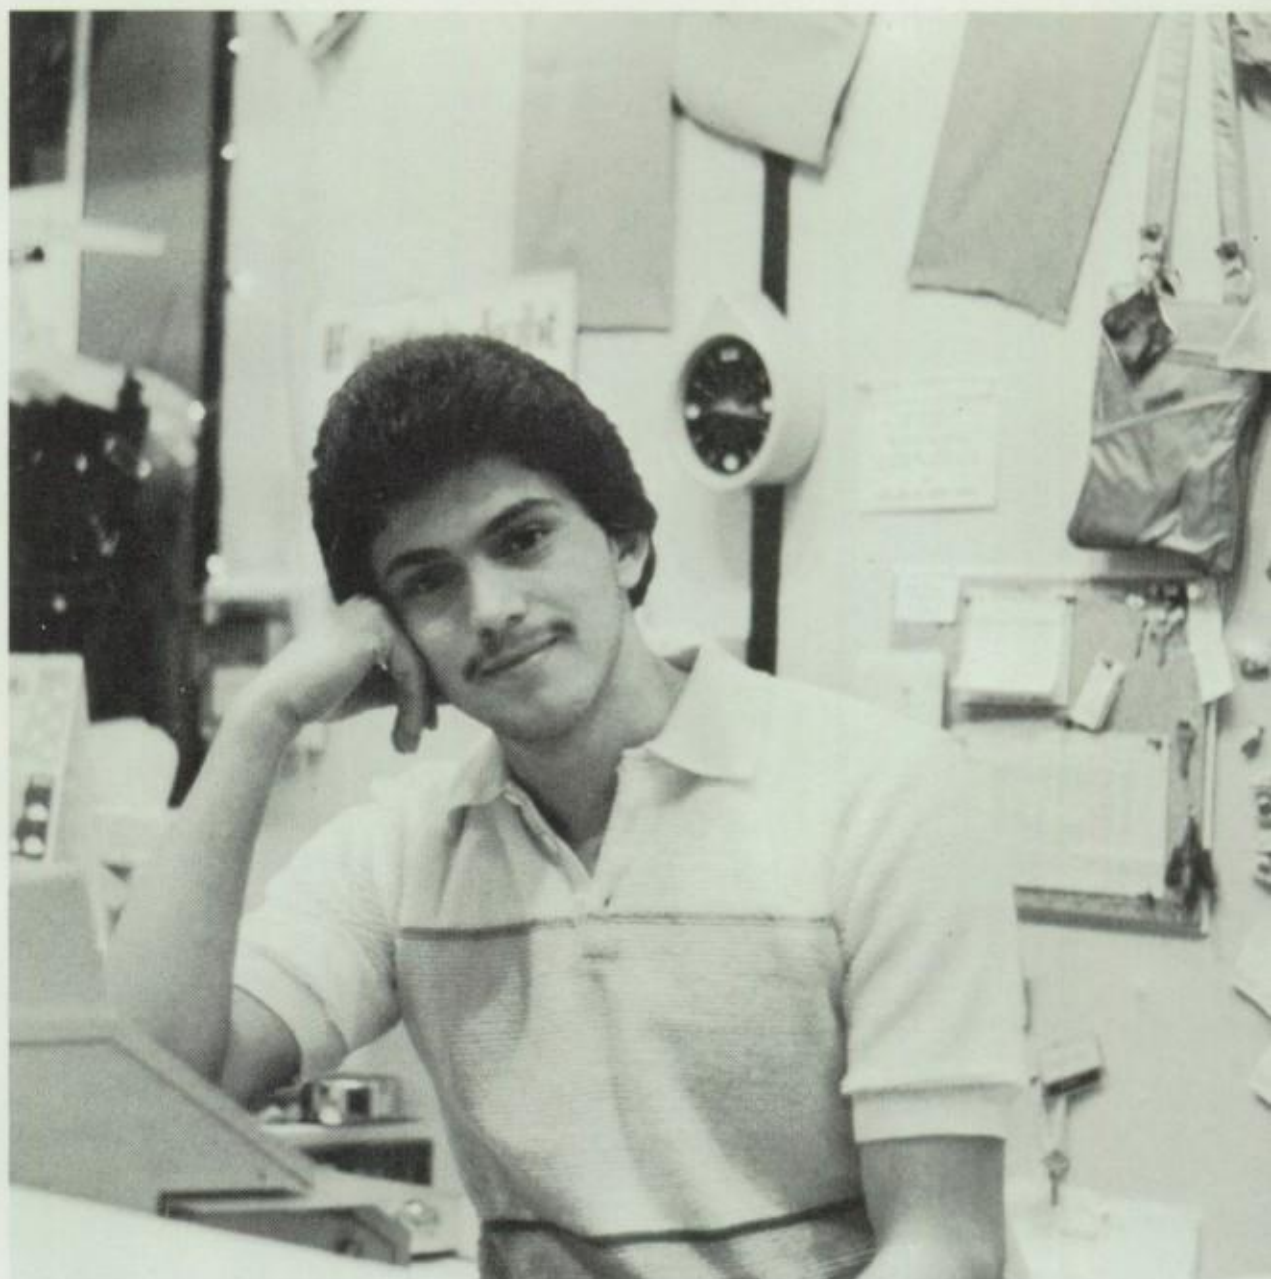

Hurray, It's Payday!

Work was one of the most hated words in a Senior's vocabulary. For some Raiders though, working at a part time job after school or on the weekends was a necessity to help meet family expenses. For others, however, a job meant extra money for gas, the latest EWF album, or a pair of Calvins.

The variety of jobs that Raiders had ranged from clearing off tables in restaurants to selling shoes in a department store.

Eddie Velez takes a short breather in between the mad rushes of holiday shoppers in Eastridge.

Learning to manage their time wisely was often difficult, and sometimes grades had to be sacrificed for the almighty dollar.

Music to Our Ears

Pedro Meirelles came to the States from Luanda, Angola, a Portuguese colony, five years ago. He likes life in this country, the friendly people he has met, and he even says that school is fine. His hobby centers around music and his violin, which he practiced with so much dedication that his work and talent won him a chair in the California Symphony.

Although Pedro had always liked music, he never had the opportunity to play an instrument until the 7th grade.

The California Youth Symphony now only allows performers to play through the 12th grade. This will be his last year there. After graduation Pedro plans to attend college.

Hall of Fame '81

Athletic excellence has always been a tradition with the class of 1981. Since our freshman year, our athletes have always stood a breed apart. They have helped many different Raider teams to MHAL victories and they've led the way in CCS competitions. This year, the Class of '81 presented a list of twenty-two Senior Honor Athletes — the most a class has ever had! Every one of these athletes was chosen by their coaches, who were best able to judge their abilities, and each of them deserves this great honor. Congratulations to these outstanding athletes and best wishes for continued success in the future!

Senior Mosts

The annual choosing of the Senior Mosts has been a popular tradition among seniors here at Creek for years. For each category on each section, every senior nominated two classmates, one male and one female, who he felt most deserved the honor. From this list, the top six nominees for each category — three males and three females — were determined. A ballot was distributed, containing the names of all nominees for the respective categories. The seniors voted, and in this manner, the winners were chosen. The results were kept secret until the end of the year, even from the winners themselves.

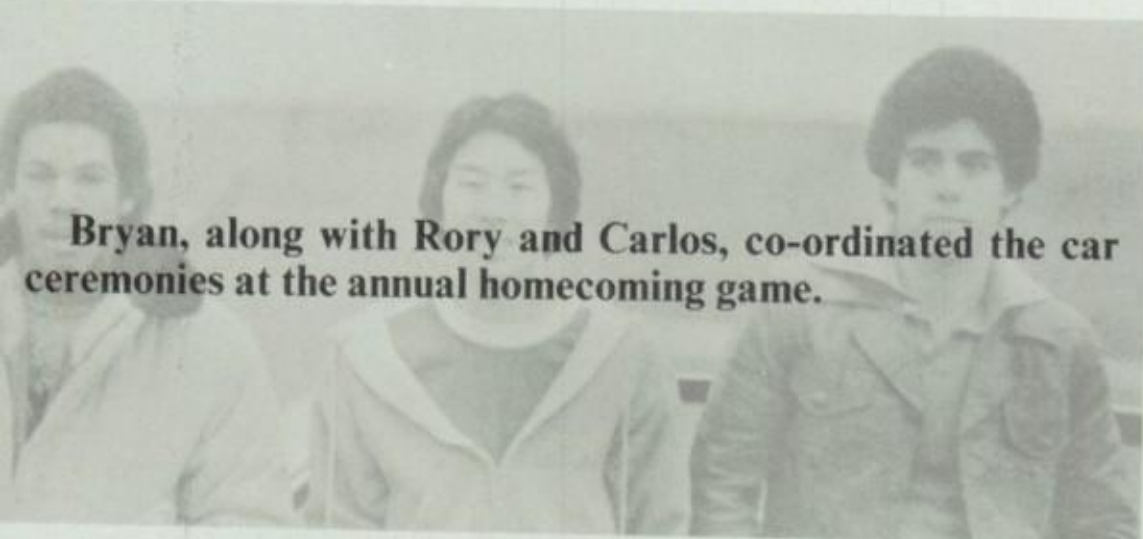

This group of seniors was responsible for the fantastic first place '81 float.

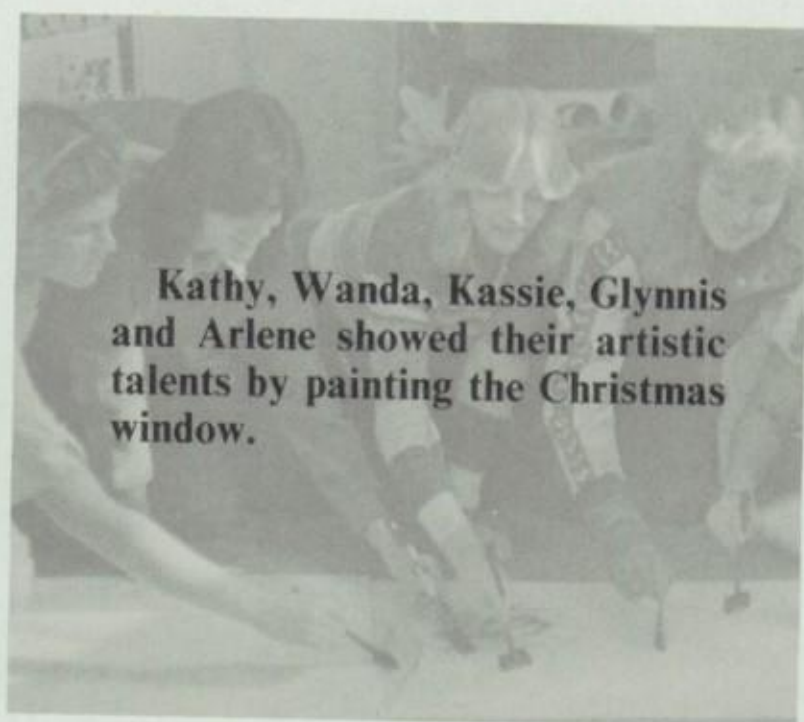

Arlene kept tabs on the senior candy sale and at the same time sold 26 boxes, winning the trip to Gradnite.

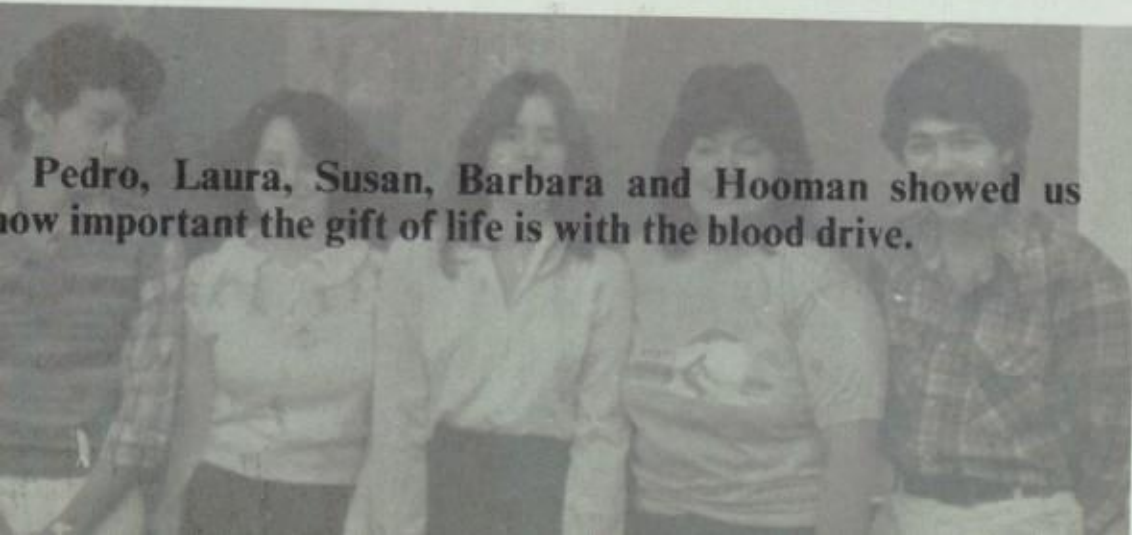

Seniors, You're the Most!

Bryan, along with Rory and Carlos, co-ordinated the car ceremonies at the annual homecoming game.

Kathy, Wanda, Kassie, Glynnis and Arlene showed their artistic talents by painting the Christmas window.

Pedro, Laura, Susan, Barbara and Hooman showed us how important the gift of life is with the blood drive.

Senior Tops

One of the best things about having a yearbook is being able to look back five years later and remember all the things that were the "tops." Favorite cars, favorite stars, favorite songs . . . it's always fun to remember and marvel at the changes. (You mean I used to listen to that?!) This year the Seniors were asked to choose their favorites, and here are the results:

TOP SONGS

Whip It — Devo
Another One Bites the Dust — Queen
Sailing — Christopher Cross
Wide Receiver — Michael Henderson
All Out of Love — Air Supply

TOP MUSICAL GROUPS

With a Little Help From Our Friends

The most important part of the Senior Class (besides the class itself!) was the hardworking and dedicated senior advisors, who, under the leadership of Mr. Martin, devoted many long hours of labor and time just so we could successfully hold a dance, sell candy or have a Prom.

The Class of '81 was especially lucky to be blessed with the guidance and assistance of Mrs. Susan Daughenbaugh, who has been our advisor since our freshman year. She has helped us in so many ways, and our gratitude could never be expressed in such a small space. But to you, Mrs. Daughenbaugh, and to all our Senior advisors — we thank you and we love you!

Christmas is the time

Center. The award-winning Christmas poster in the making.

Below left. Mr. Ketterer, another super senior advisor.

Below right. The fantastic first place Senior float.

Seniors Spend Big Bucks

After spending a full day tolerating demanding teachers, insipid cafeteria food, jammed lockers, and impossible quizzes, dozens of students marched to part-time jobs after school. There, they poured gooey milkshakes into cups, cleaned up after kids who had smeared ketchup on the windows, and took the blame from irate customers who had found hairy little spiders in their pizza.

They kept a stiff upper lip when their balding, hypertensive bosses screamed in their faces; they didn't complain too loudly when they were scheduled to work during football games.

There must have been a pretty darned good reason why these valiant Raiders sacrificed hours which may have been devoted to play or study in order to earn some money.

Dates, movies, records, concert tickets were commodities vital to teenager's well-being, but there were several other expenses that Seniors had to add to their lists.

For the benefit of all underclassmen who are aspiring to become Seniors, here is an itemized list of expenses that have drained the pocketbooks and wallets of Seniors all over the school.

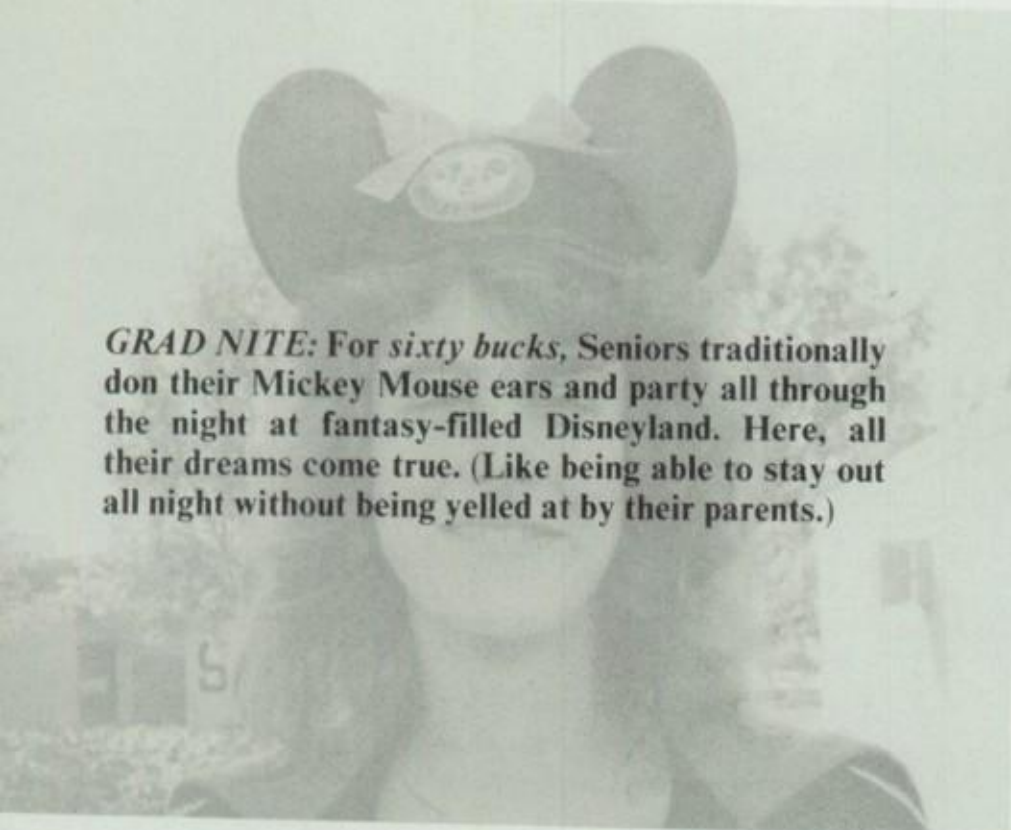

Joe,
Well I finally made it. I'm out of school! Don't miss me too much. *Joe* suck in football next year and hope you get that trophy. And good-luck with And I wish you the best of luck in *Joe* Take care of me! *Joe* If you need someone to talk to *Joe* You can, *Joe* *Gale*

TAKING THE S.A.T. TESTS: Usually, students would be willing to buy their way out of a test, but Seniors are forced to pay before they are given the privilege of flunking this test. **\$15**

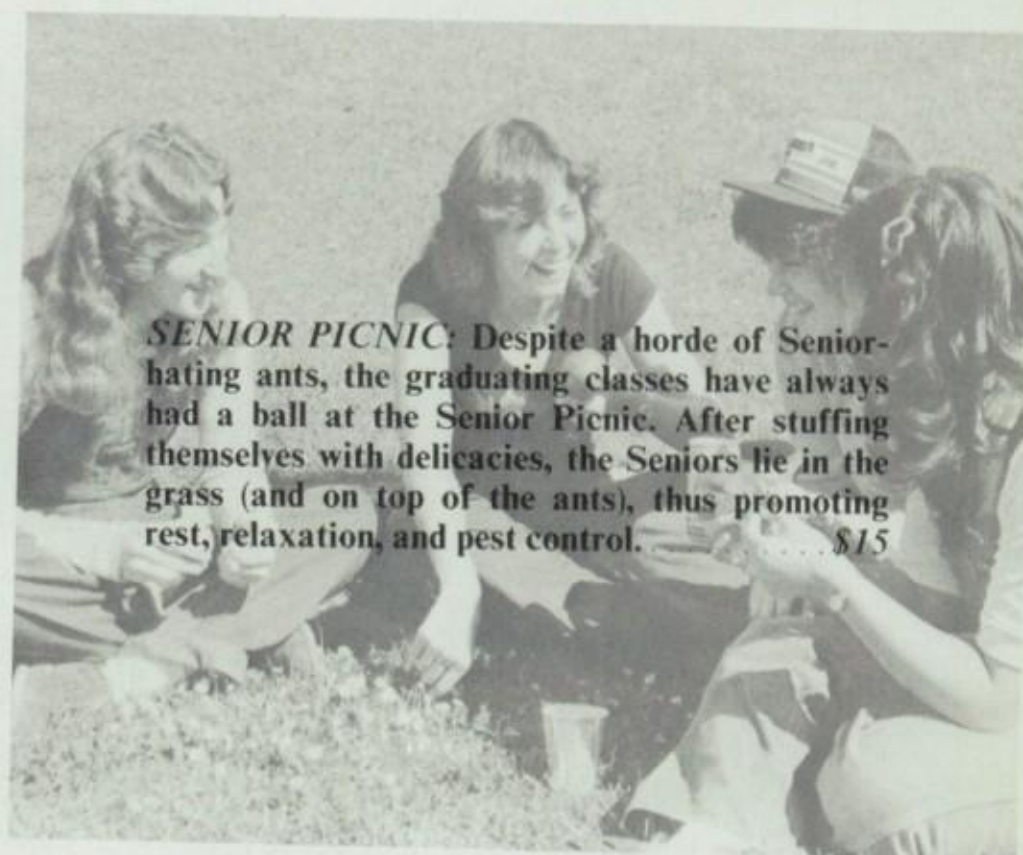

SENIOR PORTRAITS: Of course you have to buy the 100 picture package because you have to give Aunt Petunia, your fifty-three cousins, and your entire class a little picture taken of you a year before you graduated. Also, you hope they can touch up all those spots remaining from your measles that you had gotten over just before the picture was taken. **\$50-\$100**

CANDY SALES: Being a good Senior means forking over *fifteen bucks* to buy candy you hope to sell before it gets hot and gooey and drips all over your closet, or before your baby sister feeds it all to the dog.

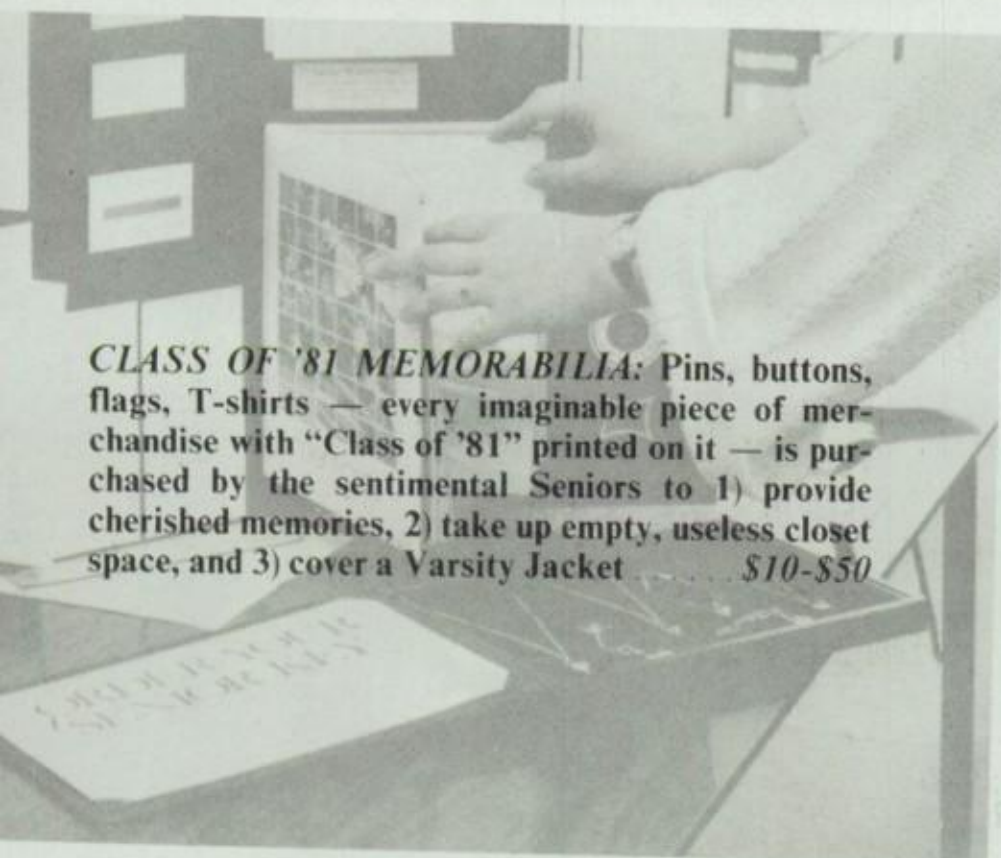

APPLICATIONS FOR COLLEGES: Seniors say goodbye to an average of \$20-\$25 every time they apply to the colleges of their choice. Too often, this is quite a price to pay just to be able to spend two hours filling out all the required forms, and receiving a rejection slip. **\$20-\$25 per application**

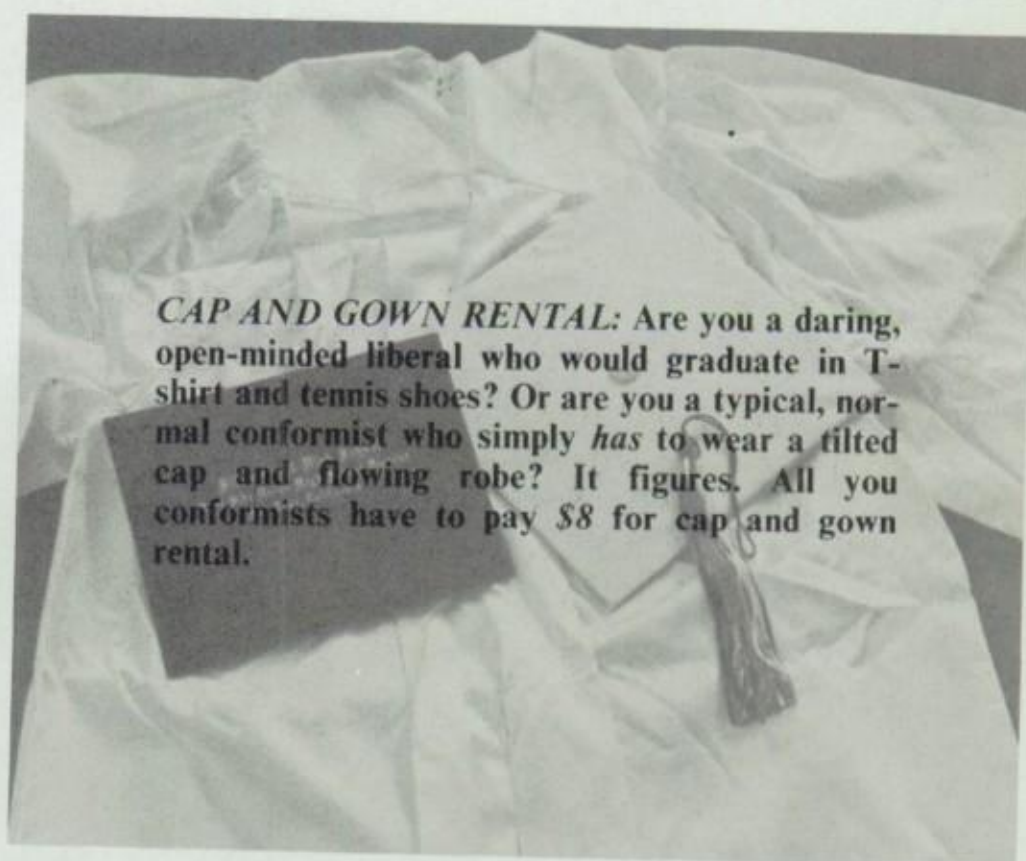

GRAD NITE: For sixty bucks, Seniors traditionally don their Mickey Mouse ears and party all through the night at fantasy-filled Disneyland. Here, all their dreams come true. (Like being able to stay out all night without being yelled at by their parents.)

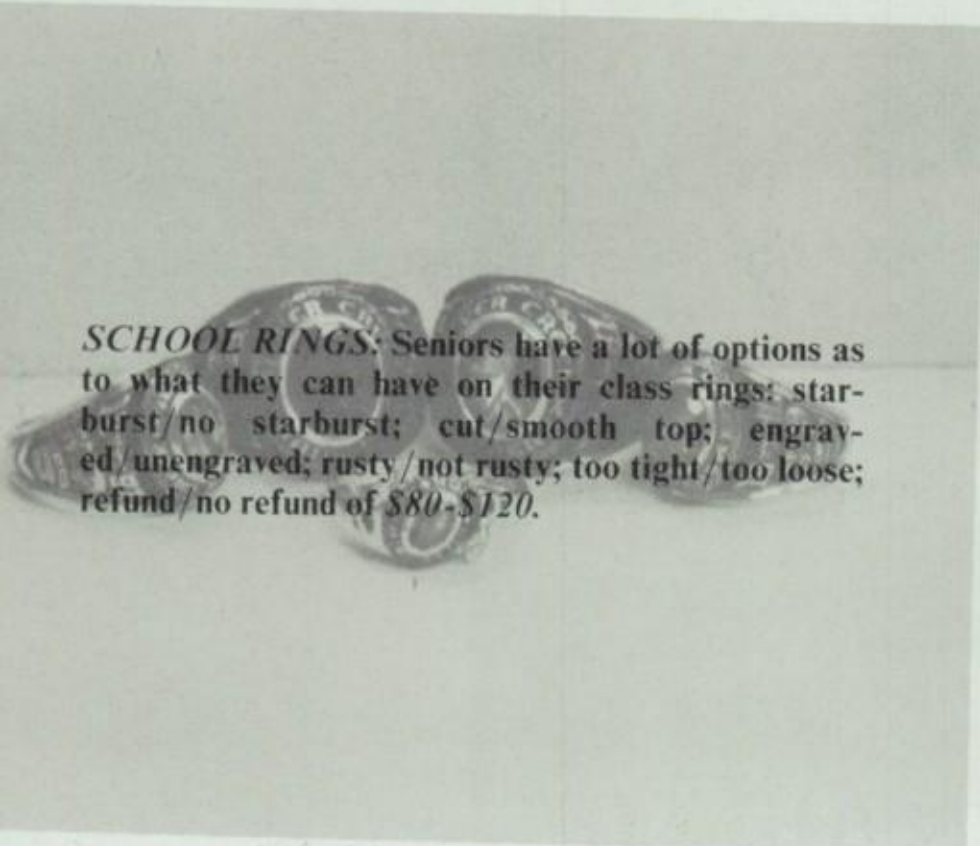

SENIOR PICNIC: Despite a horde of Senior-hating ants, the graduating classes have always had a ball at the Senior Picnic. After stuffing themselves with delicacies, the Seniors lie in the grass (and on top of the ants), thus promoting rest, relaxation, and pest control. \$15

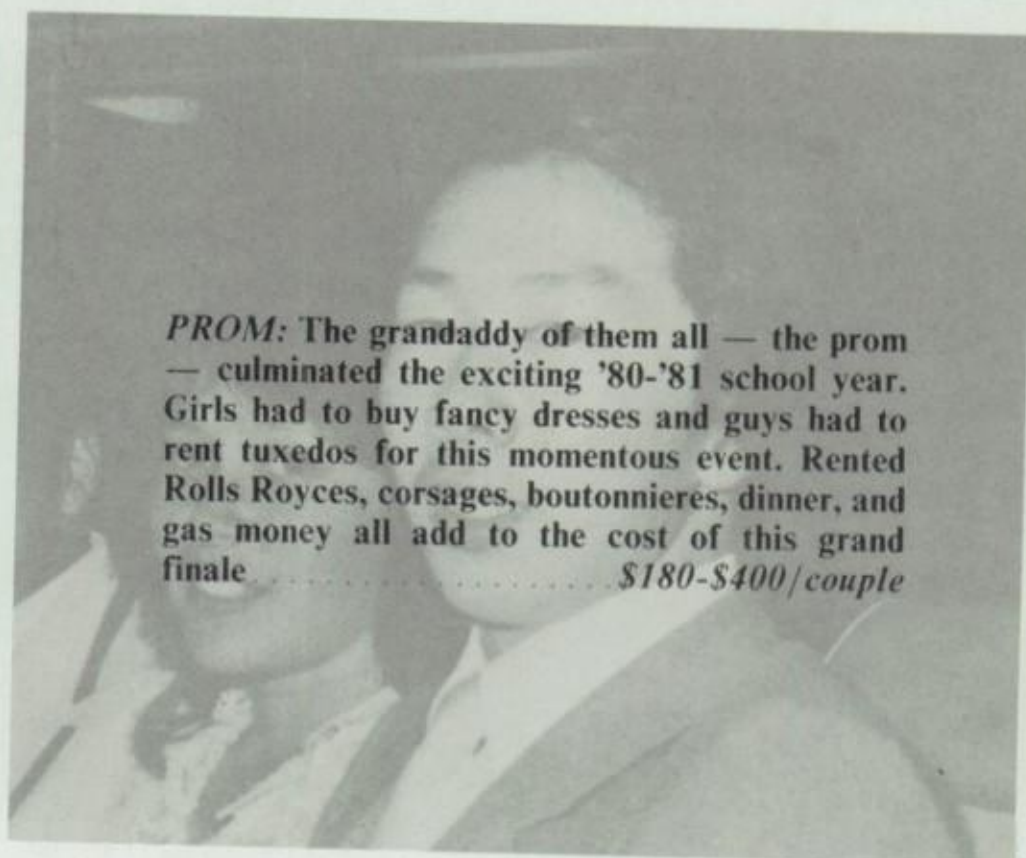

CLASS OF '81 MEMORABILIA: Pins, buttons, flags, T-shirts — every imaginable piece of merchandise with "Class of '81" printed on it — is purchased by the sentimental Seniors to 1) provide cherished memories, 2) take up empty, useless closet space, and 3) cover a Varsity Jacket \$10-\$50

CAP AND GOWN RENTAL: Are you a daring, open-minded liberal who would graduate in T-shirt and tennis shoes? Or are you a typical, normal conformist who simply *has* to wear a tilted cap and flowing robe? It figures. All you conformists have to pay \$8 for cap and gown rental.

SCHOOL RINGS: Seniors have a lot of options as to what they can have on their class rings: starburst/no starburst; cut/smooth top; engraved/unengraved; rusty/not rusty; too tight/too loose; refund/no refund of \$80-\$120.

PROM: The granddaddy of them all — the prom — culminated the exciting '80-'81 school year. Girls had to buy fancy dresses and guys had to rent tuxedos for this momentous event. Rented Rolls Royces, corsages, boutonnieres, dinner, and gas money all add to the cost of this grand finale \$180-\$400/couple

Landing your picture in this section of the yearbook is not quite as easy as eating apple-pie. These students have earned a special honor by upholding their high grades for CSF. However, by adding certain other qualities, some have earned special consideration for another incomparable group: the NHS.

As a senior, a semester of the final year is very important. If CSF standards have been maintained for three semesters in the past two years, that semester will be the key to open the door to a CSF life membership.

To be eligible for the elite NHS club required much more from the average student. Not only must grades be a 3.5 or above, but he or she is also required to have good character and must show qualities of leadership, scholarship and service to the school or community.

With some luck, lots of school involvement, and studious noses caught in books, you, too, can become a unique member on this national list.

Silver Knights

Achievement, difficult to describe, was well defined by each Silver Knight winner. These students were chosen as the best students among the senior class in their respective fields. Their

achievements, trials, and tribulations were given the ultimate glory as signified in these two pages, when they were singled out from a class of 411 students and pinpointed as the thirteen Silver Knights of the class

of 1981.

Perhaps never before have honors such as these been presented to deserving seniors, so it is now that they come out of dark corners into the light of recognition.

ENGLISH

Delving deeper, Steve Dunton coupled reasoning with writing to excel in all facets of literature and language. Gaining practical experience, he was then able to share with others.

STEVE DUNTON

MATHEMATICS

Integrals and logarithms have challenged mathematicians for centuries. Tam Nguyen found mastering them equally challenging, devoting class periods to trigonometry and pre-calculus as well as hours of leisure time.

TAM NGUYEN

SOCIAL STUDIES

Concerned about current events, Steve McGriff put out an extra effort to learn all he could about local, national, and international affairs. He continued to keep himself well informed on all issues.

STEVE McGRIFF

FOREIGN LANGUAGE

Reading, writing, and speaking, easy for most, provided a challenge when done in a different language. After four successful years in French, Lori Cheshire demonstrated her command of the language.

LORI CHESHIRE

SCIENCE

Ripple tanks and pulleys were all tools of the trade for Pedro Meirelles in physics and chemistry. Whether it was meticulous observation with experiments or equation-logged theoretical work, his scientific aptitude was disputed by few.

PEDRO MEIRELLES

JOURNALISM

A creative genius, Wanda Jaworski combined her profound writing ability with eye-catching comic designs to create trendsetting publications for Silver Creek. She recorded the year for each individual with added insight.

WANDA JAWORSKI

INDUSTRIAL ARTS

From constructing PC boards to drawing original machine parts, Greg Matson displayed his skills in electronics and technical drawing. His work benefited both students and teachers.

GREG MATSON

BUSINESS EDUCATION

Being Business Manager at Silver Creek gave Trinnie Miles the opportunity to accept responsibility. She has been recognized for her skills in a number of business courses including advanced accounting, typing, and business machines.

TRINNIE MILES

ART

Perceiving life in a unique way, Glynnis Steiner found drawing her favorite mode of expression. The art room, as well as the school in general, benefited from seeing her work displayed.

GLYNNIS STEINER

COMPUTER PROGRAMMING

Researching the subject beyond what is required has made Thuan Pham an outstanding student in computer programming. He makes very effective use of his time, developing outstanding characteristics which will enable Thuan to pursue any goal successfully.

THUAN N. PHAM

CHORAL MUSIC

Music was a way of life for Brenda Greenhalgh. Whether singing in a school concert or participating as the lead in a school play, she left audiences spellbound.

BRENDA GREENHALGH

INSTRUMENTAL MUSIC

Music was not the only aim of four year band member Ron Abadam. Combining superior musical ability with limitless school spirit, he created an electric atmosphere during pep rallies, half-time shows, and all band competitions.

RON ABADAM

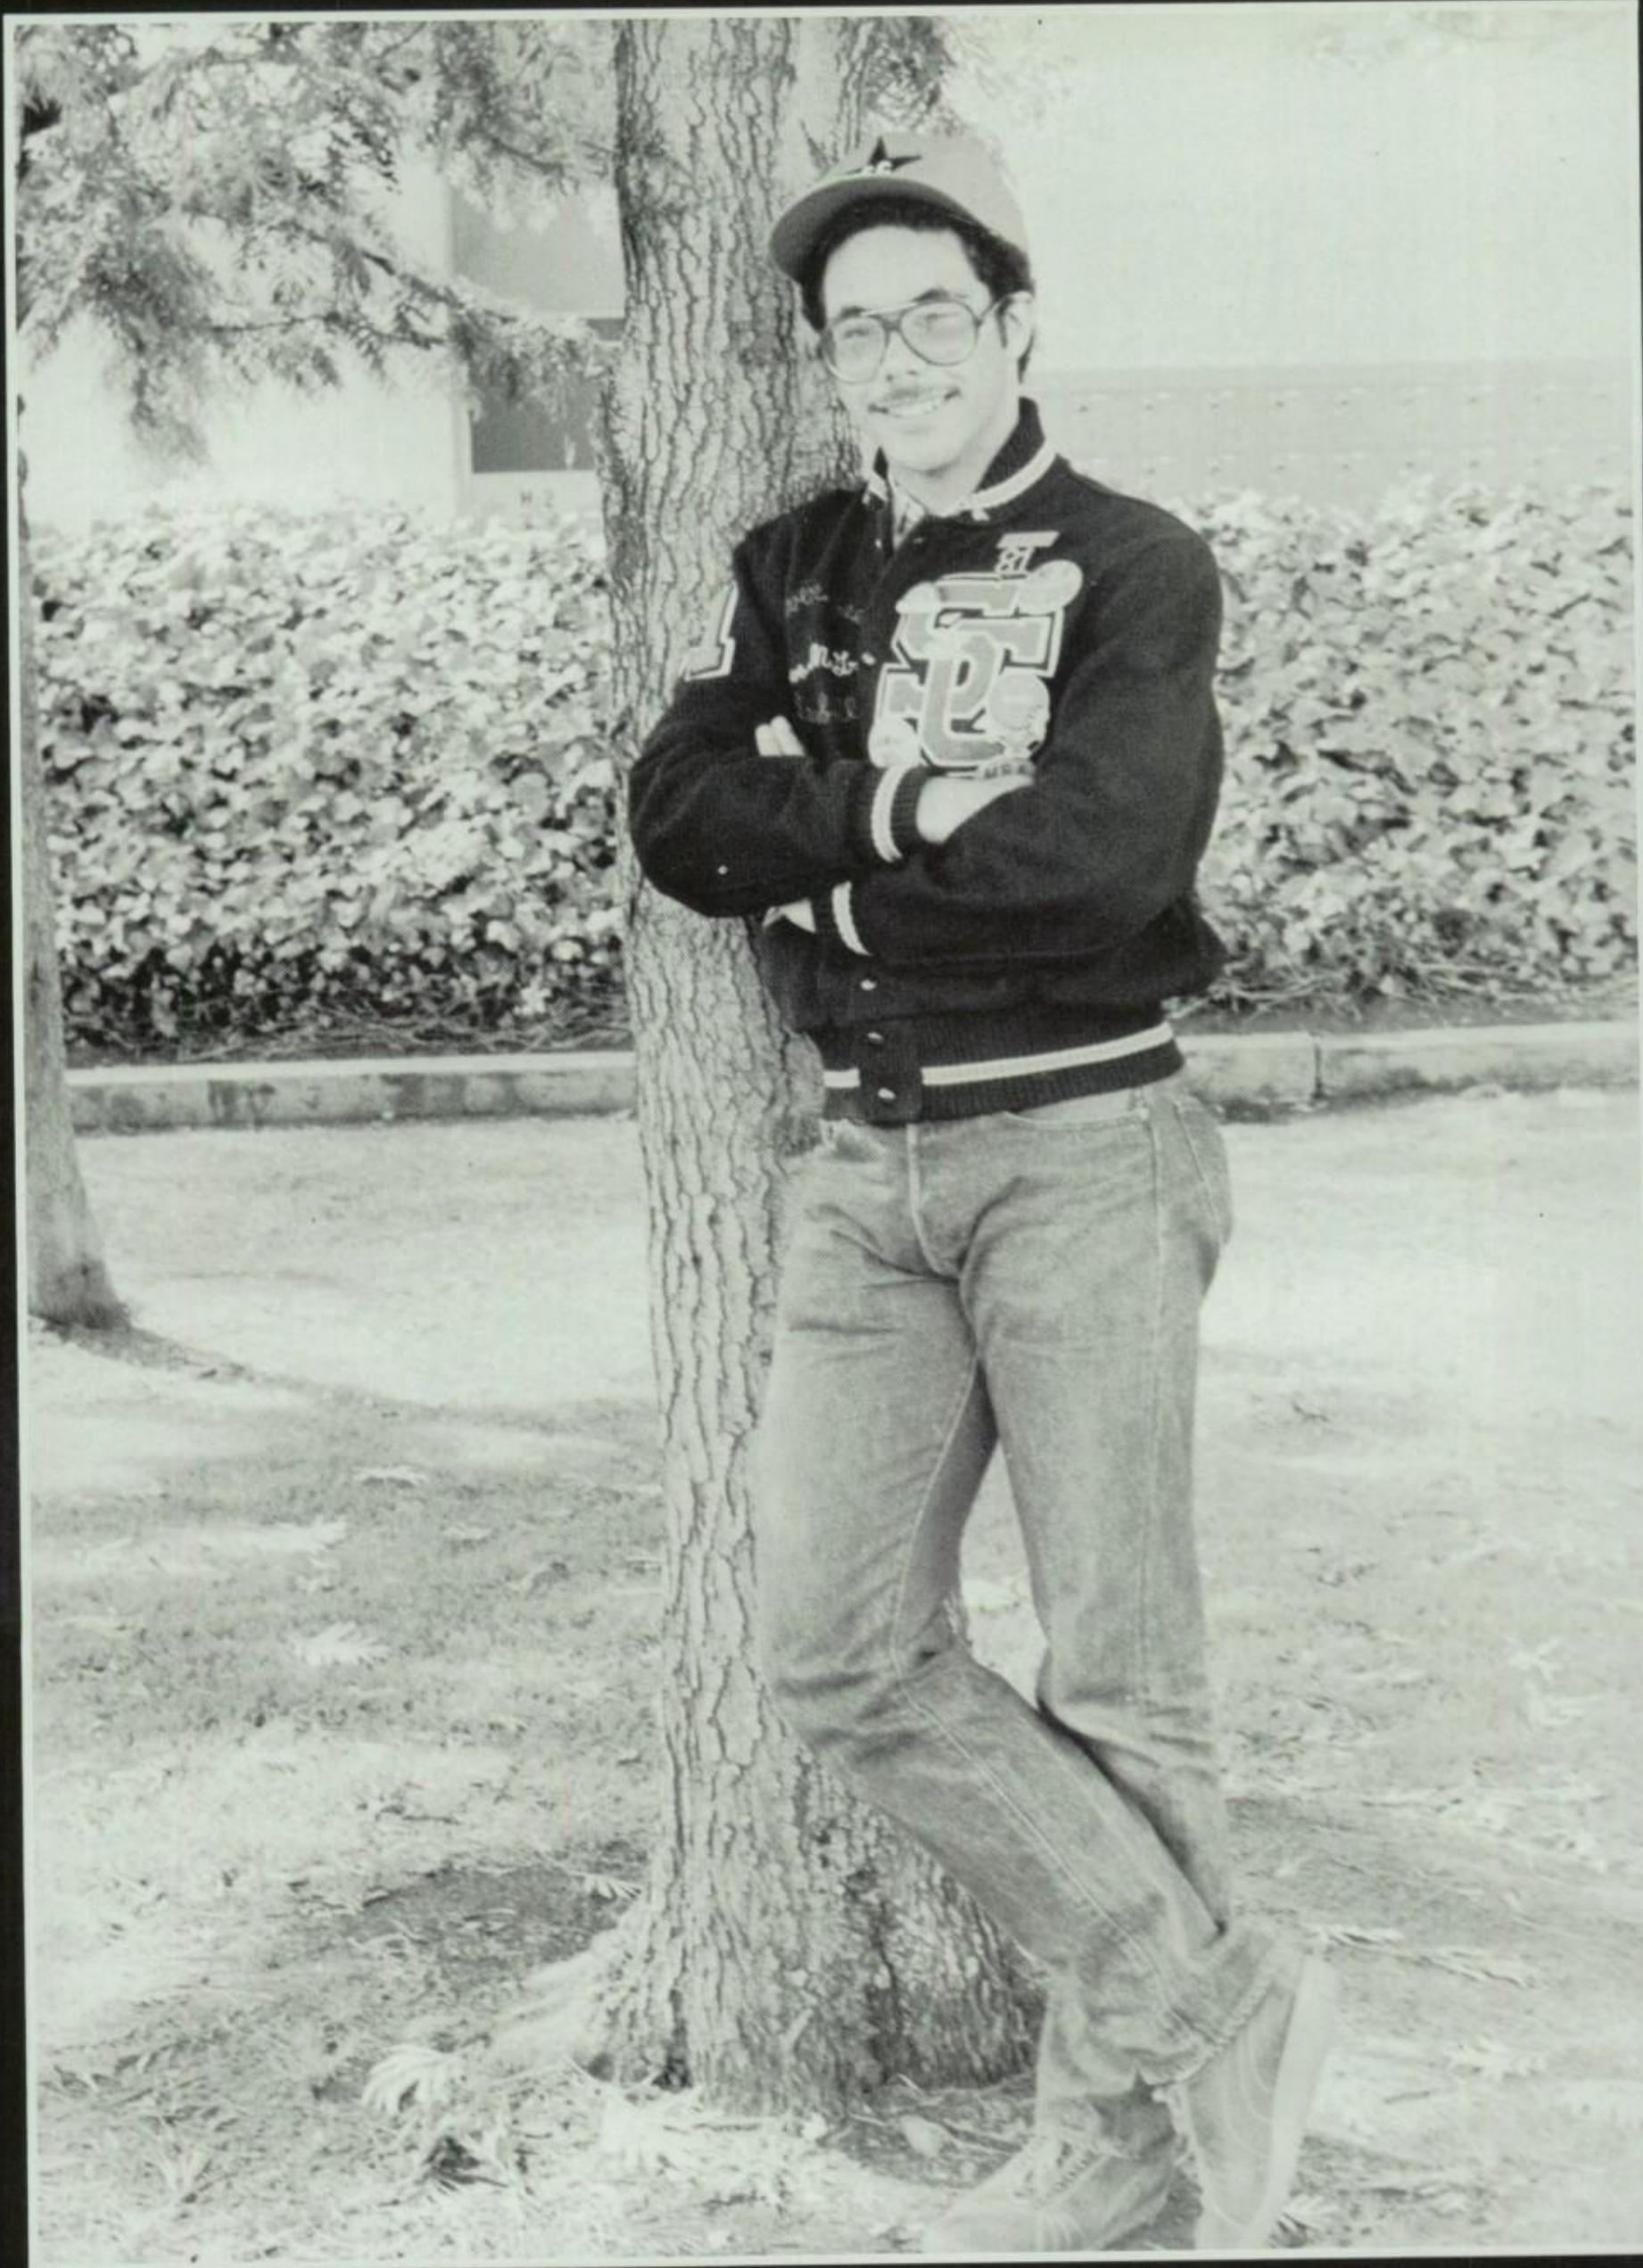

VOCATIONAL

Because of her great enthusiasm to learn and develop her talents, Allyson Wheeler is our top vocational student. She hopes to use her abilities in the court house as a stenographer.

WE LEAD, OTHERS FOLLOW!

Super Raider

What is a Super Raider? What qualities must one possess in order to be given such an honor?

A Super Raider is a senior here at Creek, who has excelled not only academically, but also in extracurricular activities. However, being a Super Raider also means being a sound human being — one who gives their all in everything they do — one who goes out of their way to show someone they care, and lends a helping hand whenever they can.

Of course, we all possess these qualities, but one student here at Silver Creek, Steve McGriff, has shown us how to use them. Steve has maintained a 3.9 grade point average the past three years, was named MVP in Frosh/Soph baseball and selected for the National Honor Society his sophomore year. He has held the offices of Junior Class Vice-President and ASB Vice-President, was a finalist in the National Merit Scholarship Association for Outstanding Negro Students, and has received numerous awards for academic achievement. But most of all, he is an honest, hardworking person whose friendship most of us could not do without. His character, integrity, and leadership are among the highest one could hope to accomplish.

The Silver Creek Galleon yearbook is proud to present Steven James McGriff with the distinguished honor of 1981 SUPER RAIDER.

Give Me Some Slack

This year the Juniors thought that their classes would allow them time to take a late-morning snooze but were awakened with a rude shock. Classes were "heavier and harder" (bigger and badder) than they had ever known. History, U.S. Lit. and other challenging classes kept the Juniors so bogged down with homework that we had little time for T.V., cruising, or plain old goofing off. To sum it all up, the Juniors often exclaimed, "Give me some slack."

Junior Jocks

The Junior class was exceptional in almost everything they attempted. An area in which the Juniors truly excelled was Varsity Football.

There were two very outstanding Juniors who played on the team: Joaquin Gabriel and Tim Peoples. Coach Haymond reported that they are two of the most outstanding players that could ever come out of Creek. Joaquin's qualities are an accurate throwing arm and an ability to run fast. Tim Peoples' reputation speaks for itself; he is the best wide receiver in the Central Coast Section. He has great speed and jumping power. Tim is also a defensive back. Three cheers for the Juniors of the Varsity Football team.

Some of the Varsity football players discuss the strategy of the day's game while eating at their favorite table.

Scott Reynolds, Chuck Martinez, and Mike Ornales lived up to their reputation of being basically strange.

Monique Stanford demonstrated the "punk look."

Gilbert Smith, of the group High Voltage, relates to his music.

Basically Strange

The Class of '82 was known throughout the campus as a rather different group of people. Many expressed themselves in unusual ways, whether it be dancing to punk rock or playing a kazoo in the middle of class. For Monique Stanford, coming to school in a mini-skirt and horn-rimmed glasses was a normal, everyday occurrence. Carl Smith used the "Sixties look" for his musical act. Others just roamed around campus, acting rather weird. This goes to show that Juniors had a wide range of interests and idiosyncrasies which, it turn, caused them to be labeled, "basically strange."

That's What Friends Are for

What is friendship? First, it is love and understanding. It's having someone to lean on when you're feeling low. Friendship is knowing that someone will always be there to help with the good times, as well as the bad.

A good example of friendship is Renee Magdaleno and Diana Diaz. The two have known each other for thirteen years, and feel that their friendship contains all the ingredients mentioned above. Diana and Renee reveal their secret for the world to know: "To keep a good friendship, always show your friends how much they mean to you." Sound advice indeed!

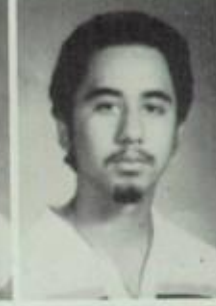

Good friends from childhood, Renee and Diana share fun times together.

Fun Time

When the last bell rang, this campus cleared out in record time. Who were the kids leading the way to buses, bikes, and autos? The Juniors, of course! When it came to getting off campus and getting down to fun, the Juniors led the pack.

If you asked a Junior what his favorite time of day was, the answer would be something like: "After school! Late night! Skate night!"

You never heard a single Junior say: "I have Saturday school."

Every Junior had a favorite way to relax, be it roller skating or eating pizza. After a hard day at school, no fun-loving Junior would go home and do six hours of homework.

The Junior class really knew how to have a fun time.

History Lives on

History is ancient, past tense, over; but the spirit of history lives on at Creek.

The Class of 82 was a very diverse group, but history was a unifying experience, which all Juniors suffered through.

For some, the trauma of the Nuremberg trials was great; for others, it was an enriching experience. Most will never forget the Revolutionary War or Women's Suffrage. Nevertheless, whether history was enjoyed or dreaded, all Juniors felt a sense of comradeship because of it.

Artistic "10's"

Creativity is one of the many things the students at Silver Creek express in their work. Some of the courses that challenge the creative Sophomore mind are: Photography, Ceramics, Art, Jewelry, and Technical and Architectural draw-

ing. Each of these classes gives the student a chance to express his or her individual talent. Many of these gifted students have an opportunity throughout the year to display their works by entering school and local art shows.

An Unforgettable Experience

The first day of school has always been a traumatic experience for Freshmen. The first thing they were told was, "Go directly to the large gym for your orientation assembly."

The Freshmen were then told to pick up their class schedules at the D-Building!

Finally they reach their first period class safe and sound, only to discover it was the middle of second period. Oh well so much for the first day of school!

Most freshmen survived though and became known as one of the most spirited classes to hit S.C. in years!

Homecoming Excitement

Spirit Week held fun, excitement, and success for the class of 1984. The Freshmen's participation in the spirit contests was admirable, especially when Frank Sabadin took first in the pie-eating contest.

Freshman, Julie Calvo, was nominated for Homecoming Queen by the J.V. Cross Country Team. What an honor for the Class of '84! During Homecoming halftime, the Freshmen float was driven around the track amidst cheers and applause from the enthusiastic audience. The Spirit and greatness of the mighty CLASS OF '84 was always evident.

The Class of 84 shows its enthusiasm at a spirit rally.

Moving Up With Power

Entering high school — at last! Most freshmen acquired a new independence.

New activities became an important part of freshmen roles. Rallies, assemblies, clubs and other involvements kept them busy.

Our high school football games and Round Table pizza after are a must at Creek!

Being a freshman was not always easy, though. Upperclassmen's superiority sometimes ruled the freshmen's way of thinking. All in fun, of course!

Freshmen took it all in stride, with their great "Raider Pride!"

Growing Together as One

In 1981, the Class of '84 strived for excellence.

They believed that friendship was a thing to be valued and cherished for they held memories of happiness, love, and growth.

The freshman class of '84 all depended on each other. They worked together to achieve and succeed in their goals.

The cherished moments and unforgettable feelings were what made the freshmen feel that their class was number one.

This year many freshmen moved into the "New Wave" scene. Robert Zepeda proudly portrays a punk.

Gabriel Castaneda rolls around the campus doing one of the latest, popular fads — rollerskating.

Freshmen and Fads

Fads were obviously a favorite pastime for all the students at Silver Creek but for the first time, freshmen were able to express their spirit by getting involved in these fads.

The "new wave," better known as "punk rock," included anything from hair streaked a rainbow of colors to wearing a stream of safety pins in the ears. Not only was there punk but freshmen expressed their spirit in disco, also. Pleated baggies, bright colored blouses and rollerskating to the music were all a part of freshman and fads.

Freshmen Spirit Is Sky High

"Freshman Power! Freshman Power!" This inspirational cheer could be heard from the Class of '84 at every single rally. The freshmen were exceptionally high-spirited this year, and they showed it.

"The class of 1984 can't be beat for its spirit and energy. We're so great no one can out do us. If you see spirit now, just wait until we're seniors. We know how to lead, and we surely will. The class of '84 rules, now and forever!"

Julie Calvo

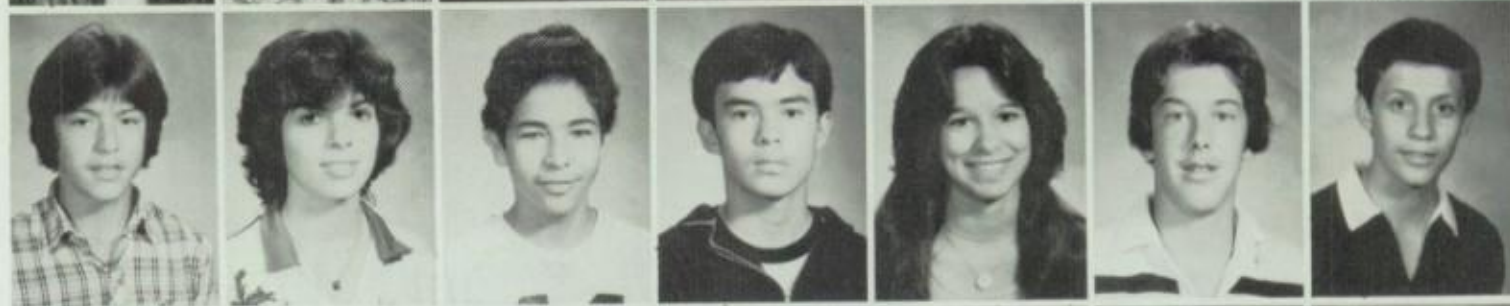

There was a certain sense of unity and energy among the freshmen, and nobody could help catching it. At rallies, football games, activities — no one else could outshine the class of '84, because freshmen spirit was sky-high!

ADVERTISERS

Like birds with a favorite tree, many students found a perch which they regularly patronized throughout the year. Movie theaters, restaurants and other such caverns were favorite habitats. The merchants gratefully reciprocated by donating to many school related fund raisers. Gaggles of students volunteered their precious time in order to work in the community and part time jobs.

School-community relations were the best ever this year, and the 1981 Galleon staff would like to extend its deepest appreciation for the community's support. We could not have done it without all of you.

Opposite Page. Punk Ad. "Eric Lives" Danny Garcia, Tracy Gatewood, Donna Horio, Monique Stanford, Darryl Washington, and Lisa Gatewood.

Top. Donuts, Doughnuts, Do-nuts! Chris puts in a lot of after-school time at the busy "Donut Hole" in Eastridge.

Far Left. Who has the ball? The Boys' Soccer Team!

Left. When you work in "The Sunglass" everything must be shining clean. Minnie Diaz polishes the mirrors.

#31 STUDS YEAR BOOK

JOE

I've had our good and our bad times together, but it always seems to turn out to be another argument ahead of us. You need to come down off your high horse sometimes and realize that there are people as good as you are. You seem to let everyone know what I like the little things you do, especially when there for me. We may not of known each other last year, but were together it now. We still don't understand each other at times, but I guess that's life. You both need to realize the other persons view of your side of the story. We will know for to do in your future with baseball and football. I'm proud that you own progress in such sports. I'm graduating this year (1981) and you next year (1982). I hope our friendship grows stronger and longer. For of sure will be coming together. We will be for. You know where you are and we can see it too.
